Supersedes	Version 3.1 dated 11 November 2025

Status of this document. This Policy is an internal document of FinTrust Bank Limited. It states the Bank's own standards and the manner in which its staff are required to act. It is not a contract with any customer and does not by itself create rights enforceable against the Bank. The contractual relationship between the Bank and a customer is governed by the account terms and conditions accepted at account opening. Where the terms and conditions are silent, or are less favourable to the customer than this Policy, this Policy shall guide the Bank's conduct.

Monetary references. All amounts are expressed in Indian Rupees and are indicative for the purposes of this Policy. Prevailing rates, charges and limits are those published in the current Schedule of Charges at branches and on the Bank's website, which shall prevail over the indicative figures reproduced in this document.

Interpretation. Words importing the singular include the plural and words importing one gender include every gender. A reference to a Section is a reference to a Section of this Policy. Headings are for convenience only and do not affect interpretation.

1. Purpose and Objectives

1.1 Purpose

This Current Account Policy ("the Policy") establishes the principles, standards and operating rules governing the offering, opening, maintenance, servicing and closure of current deposit accounts by FinTrust Bank Limited ("FinTrust" or "the Bank"). Current accounts are non-interest-bearing transactional accounts maintained for the conduct of business, trade, professional practice and institutional activity. The Policy is the authoritative internal reference for all matters relating to current accounts and supersedes all prior circulars, notes and desk instructions on the subject.

1.2 Objectives

The Policy is designed to achieve the following objectives:

- To ensure that current accounts are opened only for customers with a genuine transactional requirement arising from a business, trade, professional or institutional activity.
- To ensure that the opening and conduct of current accounts does not undermine credit discipline in the banking system, and in particular that accounts are not used to route funds away from lenders who have financed the customer.
- To ensure full compliance with applicable statutory and regulatory requirements, including those relating to customer identification, beneficial ownership, anti-money laundering and the treatment of unclaimed deposits.
- To define uniform service standards for transaction banking so that a customer receives consistent service across branches, channels and geographies.
- To set out clearly the documentation appropriate to each constitution of applicant, so that requirements are neither excessive nor deficient.
- To provide staff with unambiguous guidance so that discretion is exercised consistently and exceptions are properly authorised and recorded.

1.3 Guiding Principles

Purpose fit. A current account shall be offered where the customer's activity genuinely requires transactional banking. Staff shall not open a current account for a customer whose requirement is met by a savings account, nor a savings account for a customer conducting a business activity.

Credit discipline. The Bank's obligations to the wider banking system take precedence over the commercial opportunity presented by an individual account.

Transparency. All charges, balance obligations, transaction limits and service standards are disclosed to the customer before the relationship commences, and any subsequent change is notified in advance.

Proportionality. Documentation, due diligence and monitoring are applied in proportion to the constitution, size and assessed risk of the customer.

Accountability. Every deviation from this Policy is traceable to a named approving authority and is subject to periodic review.

2. Scope and Applicability

2.1 Scope

This Policy applies to all current deposit accounts denominated in Indian Rupees and maintained with any domestic branch of FinTrust Bank Limited, and to all current account variants listed in Section 5, including variants that may be introduced during the currency of this Policy.

2.2 Persons Bound by the Policy

The Policy is binding on all employees of the Bank, whether permanent, probationary, contractual or on deputation; on all business correspondents, direct selling agents and outsourced service providers engaged in relation to current account acquisition or servicing; and on all third parties operating branded or co-branded FinTrust transaction banking channels.

2.3 Exclusions

This Policy does not govern:

- Savings deposit accounts, which are governed by the Savings Account Policy.
- Term deposits and recurring deposits, which are governed by the Term Deposit Policy.
- Cash credit and overdraft accounts operated as credit facilities, which are governed by the Credit Policy. Where such a facility is linked to a current account, this Policy governs the current account and the Credit Policy governs the facility.
- Foreign currency accounts and accounts maintained at overseas branches.
- Escrow, nodal, collection and other special-purpose accounts opened under contractual or regulatory mandate, which are governed by the Specialised Accounts Policy. The due diligence and monitoring provisions of this Policy nonetheless apply to such accounts.

2.4 Relationship with the Savings Account Policy

Where a provision of this Policy is expressed to apply in the same terms as the corresponding provision of the Savings Account Policy, that provision shall be read and applied consistently across both policies. Where the two policies differ, the difference is deliberate and reflects the different character of the two products; staff shall not import a provision from one policy into the other by analogy.

2.5 Conflict and Precedence

In the event of conflict between this Policy and any statutory provision, regulatory direction or judicial order, the latter shall prevail and the Policy shall be deemed amended to that extent with effect from the date the external requirement takes effect. In the event of conflict between this Policy and any internal circular, this Policy shall prevail unless the circular expressly records that it has been approved as an amendment under Section 22.

3. Definitions

Aggregate Exposure means the aggregate of all fund-based and non-fund-based credit facilities availed by a customer from the banking system, as reflected in the central repository of large credit information or as declared by the customer.

Authorised Signatory means a person authorised under the constitutional documents or a valid resolution of the customer to operate the account, whose specimen signature is held on record by the Bank.

Beneficial Owner means the natural person who ultimately owns or controls a customer, or on whose behalf a transaction is being conducted, determined in accordance with the thresholds in Section 7.

Business Day means a day on which the branch concerned is open for public business, excluding Sundays, second and fourth Saturdays, and declared public holidays.

Constitution means the legal form of the customer, such as sole proprietorship, partnership firm, limited liability partnership, private or public company, trust, society, association of persons, or government body.

Current Account means a non-interest-bearing deposit account from which withdrawals are permitted without restriction as to number or amount, maintained for the conduct of business, trade, professional or institutional activity.

Escrow Account means an account operated by the Bank as escrow agent under a tripartite or multipartite agreement, in which the Bank's authority to disburse is derived from the agreement and not from the customer's mandate.

Mandate means the instruction of the customer specifying who may operate the account and in what combination.

No Objection Certificate (NOC) means a written confirmation from a lender that it has no objection to the opening of a current account by the customer with another bank.

Officially Valid Document (OVD) means a document accepted by the Bank for establishing the identity and address of an individual, as listed in the Savings Account Policy and reproduced in Annexure A.

Relationship Value means the aggregate of the customer's average balances across all deposit accounts, and such other business as the Product and Pricing Committee may specify, used to assess compliance with balance obligations under Section 9.

Turnaround Time (TAT) means the maximum permitted elapsed time, measured in business days unless otherwise stated, between the receipt of a complete customer request and its completion.

4. Governance and Regulatory Framework

4.1 Regulatory Basis

Current accounts are offered by FinTrust under the licence granted to it as a banking company and are subject to the directions issued from time to time by the banking regulator, including directions relating to the opening of current accounts by borrowers, customer identification, beneficial ownership, anti-money laundering, negotiable instruments, customer protection and the treatment of unclaimed deposits. Deposits in current accounts are insured on the same basis as savings deposits, as set out in paragraph 15.6.

4.2 Policy Ownership

The Retail Liabilities Group is the owner of this Policy in respect of accounts of proprietorships, professionals and small entities. The Transaction Banking Group is the owner in respect of accounts of corporates and institutions. The Head of Retail Liabilities and the Head of Transaction Banking are jointly accountable for the accuracy, currency and internal consistency of the Policy.

4.3 Approval Authority

This Policy is approved by the Board of Directors of FinTrust Bank Limited on the recommendation of the Risk Management Committee. Board approval is required for the adoption of the Policy and any amendment to Sections 1 to 4, 8 and 22, and for the introduction or withdrawal of a current account variant. The Product and Pricing Committee may approve revisions to the Schedule of Charges under Section 10, to balance obligations under Section 9, and to transaction limits under Section 11.

4.4 Three Lines of Defence

Line	Function	Primary responsibility
First	Branches, relationship teams, transaction banking operations	Correct application of the Policy at the point of customer contact; first-level checks
Second	Compliance, Risk, Product, Credit Administration	Policy design, monitoring, thematic testing, exception governance, credit discipline checks
Third	Internal Audit	Independent assurance on design adequacy and operating effectiveness

4.5 Exceptions

Any departure from a provision of this Policy constitutes an exception and requires prior written approval from the authority specified in Section 22. Exceptions shall be recorded in the Exception Register maintained by Compliance, shall specify a validity period not exceeding twelve months, and shall be reported in aggregate to the Risk Management Committee each quarter. No exception may be granted to the credit discipline requirements in Section 8 except by the Head of Compliance jointly with the Head of Credit Administration.

5. Current Account Variants

5.1 Product Catalogue

Code	Variant	Target segment	Minimum AQB
CA-STR	FinTrust Starter Current	New and micro enterprises	Rs. 10,000
CA-BUS	FinTrust Business Current	Small enterprises, retailers, professionals	Rs. 25,000
CA-TRD	FinTrust Trade Current	Traders with high cash and clearing volumes	Rs. 1,00,000
CA-PRM	FinTrust Premium Current	Mid-market enterprises	Rs. 5,00,000
CA-COR	FinTrust Corporate Current	Corporates and institutions	Rs. 25,00,000
CA-INS	FinTrust Institutional Current	Trusts, societies, educational and charitable bodies	Rs. 25,000
CA-PRO	FinTrust Professional Current	Practising professionals and firms of professionals	Rs. 25,000
CA-ZRO	FinTrust Zero Balance Current	Accounts opened under statutory or regulatory mandate	Nil

Compliance with the balance obligation is assessed against the Average Quarterly Balance (AQB), being the sum of end-of-day closing balances for each calendar day of a quarter divided by the number of days in that quarter.

5.2 Starter and Business Current

The Starter Current account is available to enterprises within thirty-six months of commencement of activity and shall be migrated to Business Current on the expiry of that period. Both variants provide a standard bundle of free cheque leaves, cash deposit and withdrawal entitlements, and electronic transfers, as specified in the Schedule of Charges.

5.3 Trade Current

The Trade Current variant is designed for customers with substantial cash handling and clearing volumes. It carries higher free cash handling entitlements and a higher cheque return threshold before the review under paragraph 12.6 is triggered. Eligibility requires a demonstrated monthly cash turnover, evidenced by six months of statements from any bank.

5.4 Premium and Corporate Current

These variants provide integrated transaction banking services, including host-to-host connectivity, bulk payment upload, virtual account numbers for receivables identification, and dedicated service management. Entitlements are specified in the relationship documentation executed with the customer and shall not be less favourable than those in the published Schedule of Charges.

5.5 Institutional and Professional Current

The Institutional Current variant is available to trusts, societies, associations and educational or charitable bodies. The Professional Current variant is available to practising professionals, including firms of professionals, on production of evidence of professional registration.

5.6 Zero Balance Current

Zero Balance Current accounts are opened only where the account is required to be maintained under a statutory or regulatory mandate, or where the Bank is obliged to provide the account under a contractual arrangement approved by the Product and Pricing Committee. No balance obligation and no non-maintenance charge apply. Opening requires the approval of the Regional Head with the reason recorded.

5.7 Variant Migration

A customer may request migration between variants at any time subject to eligibility. Migration takes effect from the first day of the quarter following the request. The Bank may migrate an account to a lower variant where the balance obligation has not been met for two consecutive quarters, after giving thirty days' notice. Migration shall not be effected in a manner that increases the customer's balance obligation without express consent.

6. Eligibility and Constitution of Applicants

6.1 Eligible Applicants

A current account may be opened for:

- A sole proprietorship concern, in the name of the proprietor trading under the concern's name.
- A partnership firm, whether registered or unregistered.
- A limited liability partnership.
- A private limited or public limited company.
- A Hindu Undivided Family carrying on a business activity, operated by the Karta.
- A trust, society, club or association, whether registered or unregistered, subject to paragraph 6.4.
- A government department, statutory body, local authority or public sector undertaking.
- An individual carrying on a professional practice in an individual capacity.

6.2 Ineligible Applicants

A current account shall not be opened for:

- An individual whose requirement is for personal, non-business banking.
- A minor, whether singly or jointly, and whether operated by a guardian or otherwise.
- An entity or person appearing on a designated sanctions list, or with whom the Bank is prohibited from dealing.
- An entity whose constitutional documents do not permit the activity for which the account is sought.
- An applicant who declines to provide the information or documentation required under Sections 7 and 8.
- An applicant classified as a wilful defaulter, or any entity in which such a person is a proprietor, partner, director or authorised signatory, without the approval of the Head of Credit Administration.

6.3 Sole Proprietorship

A sole proprietorship concern has no legal personality separate from the proprietor. The account shall be opened in the name of the proprietor with the trading name recorded, and the proprietor shall be treated as the customer for all purposes of this Policy, including due diligence, nomination and claim settlement. The Bank shall obtain at least two documents evidencing the activity and existence of the concern, from those listed in Annexure A.

6.4 Unregistered Entities

An account for an unregistered trust, society, club or association may be opened only with the approval of the Regional Head, on the basis of the constitutional document, the resolution authorising the account, and due diligence on the office bearers and beneficial owners. The Bank shall record the reason for accepting an unregistered entity and shall review the relationship annually.

6.5 Change of Constitution

A change in the constitution of a customer, including the conversion of a proprietorship into a partnership or company, the reconstitution of a partnership, or the amalgamation of a company, requires the opening of a new account in the name of the successor entity where the legal personality changes. The existing account shall be closed and the balance transferred only against a written instruction from the persons competent to give it. Continuing to operate an account after a change of legal personality is not permitted.

7. Account Opening and Customer Due Diligence

7.1 Application and Documentation

The applicant shall complete the prescribed account opening form and furnish the documents applicable to its constitution, as listed in Annexure A. The Bank shall obtain the permanent account number of the entity, the tax registration where applicable, the specimen signatures of all authorised signatories, the mandate under Section 11, and the declaration required under Section 8.

7.2 Verification of Constitution and Authority

Before an account is made operative, the Bank shall satisfy itself as to:

- The legal existence of the entity, from the registration or incorporation record maintained by the relevant authority.
- The identity and address of the entity, from the constitutional and registration documents.
- The authority of the persons applying to open the account, from the constitutional documents and the authorising resolution.
- The identity and address of every authorised signatory, verified as for an individual customer.
- The identity of every beneficial owner, verified as for an individual customer.

The officer completing verification shall record the method used and shall attest that the originals were examined or that electronic verification succeeded.

7.3 Beneficial Ownership

The beneficial owner shall be identified according to the constitution of the customer:

Constitution	Beneficial owner threshold
Company	Natural person holding more than 10% of shares, capital or profits, whether alone or together with others acting in concert
Partnership or LLP	Natural person entitled to more than 10% of capital or profits
Unincorporated association or body of individuals	Natural person entitled to more than 15% of the property or capital or profits
Trust	Author, trustees, beneficiaries with 10% or more interest, and any other natural person exercising ultimate effective control

Where no natural person is identified under the applicable threshold, the natural person holding the position of senior managing official shall be recorded as the beneficial owner, and the reason shall be documented.

7.4 Risk Categorisation

Every customer shall be assigned a risk category of low, medium or high at onboarding, based on constitution, activity, geography, expected transaction profile, ownership structure, source of funds and any adverse information available to the Bank. Entities with opaque ownership structures, entities with beneficial owners in high-risk jurisdictions, cash-intensive businesses and entities dealing in high-value goods shall be categorised as high risk at minimum.

Risk category	Due diligence	Periodic updation
Low	Standard	Once in ten years
Medium	Standard with activity and source-of-funds enquiry	Once in eight years
High	Enhanced, with senior approval	Once in two years

7.5 Enhanced Due Diligence

Enhanced due diligence shall be applied to high-risk customers, to entities with a politically exposed person as a beneficial owner or authorised signatory, and to any customer where the Bank has reason to believe the relationship carries elevated risk. It comprises corroboration of the source of funds and source of wealth, a site visit to the principal place of business with the visit report placed on record, acceptance of the relationship by an officer not below the rank of Assistant Vice President, and enhanced ongoing monitoring.

7.6 Site Verification

A site visit to the customer's principal place of business shall be conducted before activation for all current accounts other than those of listed companies, government bodies and public sector undertakings. The visit report shall record the address, the nature of activity observed, the signage, and the name and designation of the person met, and shall be signed by the visiting officer.

7.7 Periodic Updation

The Bank shall obtain updated information and, where applicable, fresh documentation at the intervals in paragraph 7.4, and shall in every case obtain confirmation of the current list of authorised signatories and beneficial owners. Three advance notices shall be issued before operations are restricted for want of periodic updation, and full operations shall be restored promptly on receipt of the required information.

7.8 Account Activation and Welcome Communication

On completion of due diligence and the checks under Section 8, the account shall be activated and a welcome communication issued within two business days, setting out the account number, variant, balance obligation, a summary of charges, the recorded mandate, the transaction limits and the grievance escalation matrix.

8. Credit Discipline and Existing Lender Relationships

8.1 Principle

A current account shall not be opened or maintained in a manner that permits a borrower to route business receipts away from the lenders who have financed its operations. The requirements of this Section apply irrespective of the commercial attractiveness of the relationship and irrespective of whether the Bank itself has any credit exposure to the customer.

8.2 Declaration by the Applicant

Every applicant for a current account shall declare, in the prescribed form, the particulars of all credit facilities availed from the banking system, including the name of each lender, the nature and amount of each facility, and the accounts maintained with each lender. The declaration shall be signed by a person competent to bind the applicant and shall be refreshed annually.

8.3 Independent Verification

The Bank shall not rely on the declaration alone. Before opening the account, the Bank shall verify the applicant's borrowing position from the central repository of large credit information, from credit information companies, and from such other sources as Credit Administration may specify. Where the verified position differs from the declaration, the account shall not be opened until the discrepancy is explained to the satisfaction of Credit Administration.

8.4 Treatment by Exposure Band

Aggregate exposure of the customer to the banking system	Treatment
No credit facilities from any bank	Current account may be opened without restriction under this Section
Below Rs. 5 crore	Current account may be opened; the customer shall undertake to inform the Bank when aggregate exposure reaches Rs. 5 crore
Rs. 5 crore and above, FinTrust is a lender	Current account may be opened where FinTrust holds 10% or more of the aggregate exposure
Rs. 5 crore and above, FinTrust holds less than 10% of exposure	Collection accounts only; credits freely permitted, debits limited to transfer to the customer's accounts with lenders holding 10% or more
Rs. 5 crore and above, FinTrust is not a lender	Current account shall not be opened

8.5 No Objection Certificate

Where the applicant has an existing borrowing relationship with another bank, the Bank shall seek a no objection certificate from that lender. Where no response is received within a period of thirty days from a written request sent by a mode capable of proof of delivery, the Bank may proceed to open the account and shall record the request and the absence of response on the account file. Proceeding without a response does not dispense with the exposure band treatment in paragraph 8.4.

8.6 Ongoing Monitoring

Credit Administration shall review the exposure position of every current account customer at least half-yearly, and shall promptly review any account on receiving information that the customer's exposure has

changed. Where a change requires a different treatment under paragraph 8.4, the Bank shall give the customer thirty days' written notice and shall then convert the account to a collection account or close it, as the case requires.

8.7 Wilful Defaulters and Classified Accounts

Where an applicant, or a proprietor, partner, director or authorised signatory of an applicant, is classified as a wilful defaulter or is associated with an account classified as fraud, the account shall not be opened without the approval of the Head of Credit Administration. Where such classification arises during the currency of an existing relationship, the relationship shall be referred to Credit Administration within five business days for a decision on continuation.

8.8 Record Keeping

The declaration, the verification output, the no objection certificate or the record of the request, and the exposure band determination shall be retained on the account file and shall be produced on demand to Internal Audit, Compliance and the regulator.

9. Balance Obligations and Relationship Value

9.1 No Interest Payable

No interest shall be paid on the balance in a current account. Staff shall not represent to a customer, expressly or by implication, that any return accrues on a current account balance. Where a customer seeks a return on surplus funds, the customer shall be offered a sweep arrangement under Section 14 or a term deposit under the Term Deposit Policy, and the terms of the arrangement shall be explained before it is set up.

9.2 Basis of Computation

Compliance with a balance obligation is assessed against the Average Quarterly Balance, computed using end-of-day closing balances for every calendar day of the quarter, including days on which the branch was closed. The quarters for this purpose end on 30 June, 30 September, 31 December and 31 March.

9.3 First and Final Quarters

No balance obligation applies in the calendar quarter in which the account is opened, nor in the calendar quarter in which a request for closure is received.

9.4 Relationship Value

Where a customer maintains more than one account with the Bank, the customer may elect to have the balance obligation assessed against Relationship Value rather than against the balance in the current account alone. The election shall be recorded in writing and shall apply from the following quarter. Relationship Value comprises the average balances in all deposit accounts of the customer, and such other business as the Product and Pricing Committee may specify.

9.5 Charges for Non-Maintenance

Where the Average Quarterly Balance falls below the applicable obligation, a non-maintenance charge may be levied in accordance with the Schedule of Charges, subject to the following:

- The charge shall be proportionate to the extent of the shortfall and shall not exceed the ceiling prescribed for the variant.
- The customer shall be notified within seven business days of the end of the quarter, and the charge shall not be recovered before the expiry of fifteen days from the notification.
- Recovery shall not cause the account balance to become negative unless a sanctioned overdraft facility is in place. Where the available balance is insufficient, the unrecovered amount shall be held in abeyance and recovered from subsequent credits without further charge or interest.
- No non-maintenance charge shall be levied on a Zero Balance Current account, nor on an account classified as inoperative.

9.6 Waivers

The Branch Manager may waive a non-maintenance charge once per account in a financial year. A second waiver requires the approval of the Regional Head. Waivers beyond the second require the approval of the Head of the owning business group. All waivers shall be recorded with the reason in the waiver register.

10. Schedule of Charges

10.1 Principles

Charges shall be reasonable, shall bear a demonstrable relationship to the cost of providing the service, and shall be disclosed before the service is availed. No charge shall be levied for a service the customer has not requested or consented to. The complete Schedule of Charges shall be displayed at every branch, published on the Bank's website, and provided to the customer at account opening.

10.2 Notice of Revision

Any new charge or increase in an existing charge shall be notified to affected customers at least thirty days before the effective date. A customer who does not accept a revision may close the account within sixty days of the notification without payment of any closure charge.

10.3 Indicative Charges

Service	Starter	Business	Trade	Premium
Account closure within 12 months	Rs. 1,000	Rs. 1,000	Rs. 1,000	Rs. 1,000
Account closure after 12 months	Nil	Nil	Nil	Nil
Cheque book, per 50 leaves	Rs. 200	Rs. 150	Nil	Nil
Cheque return, insufficient funds	Rs. 500	Rs. 500	Rs. 500	Rs. 500
Cheque return, technical reason	Nil	Nil	Nil	Nil
Stop payment, per instrument	Rs. 150	Rs. 100	Nil	Nil
Duplicate statement, per instance	Rs. 150	Rs. 100	Nil	Nil
Balance or interest certificate	Rs. 200	Rs. 150	Nil	Nil
Standing instruction failure	Rs. 250	Rs. 250	Rs. 250	Rs. 250
Signature verification	Rs. 150	Rs. 100	Nil	Nil
Debit card annual fee	Rs. 500	Rs. 500	Rs. 500	Nil

10.4 Cash Handling Charges

Free cash handling entitlements are expressed per month and cover the aggregate of cash deposited and withdrawn across all branches and machines. Cash handled beyond the entitlement attracts a charge as shown.

Variant	Free entitlement per month	Charge beyond entitlement
Starter Current	Rs. 5,00,000 or 25 transactions	Rs. 3.00 per Rs. 1,000
Business Current	Rs. 15,00,000 or 50 transactions	Rs. 2.50 per Rs. 1,000
Trade Current	Rs. 50,00,000 or 100 transactions	Rs. 2.00 per Rs. 1,000
Premium Current	Rs. 1,00,00,000 or 200 transactions	Rs. 1.50 per Rs. 1,000
Corporate Current	As per relationship documentation	As per relationship documentation

The entitlement is exhausted on the earlier of the value limit or the transaction count. A minimum charge of Rs. 50 applies to any chargeable cash transaction.

10.5 Services Provided Free of Charge

The following are provided without charge in all variants: credit of electronic inward remittance, issue of the quarterly account statement, closure of an account within fourteen days of opening, correction of any error attributable to the Bank, and cheque return for a technical reason not attributable to the drawer.

11. Operations, Mandates and Transaction Limits

11.1 Mandate

The mandate records who may operate the account and in what combination. It shall be executed by the persons competent to give it under the customer's constitutional documents, shall specify each authorised signatory by name and designation, and shall specify any limit on the amount an individual signatory or combination may authorise.

11.2 Common Mandate Structures

- **Singly** — any one named signatory may operate without limit.
- **Jointly** — all named signatories must sign every instrument.
- **Any two jointly** — any two of the named signatories acting together.
- **Group mandate** — signatories are placed in groups, and an instrument requires one signatory from each specified group.
- **Value-tiered mandate** — a single signatory below a stated value, and two or more above it.

The Bank shall honour an instrument only where it conforms to the recorded mandate. Where an instrument does not conform, it shall be returned with the reason recorded, and the return shall be treated as a technical return under paragraph 12.5.

11.3 Change of Signatories

A change in authorised signatories takes effect only on receipt of a fresh resolution or mandate executed by the persons competent to give it, and on completion of due diligence on any new signatory. The change shall be given effect within three business days. Instruments signed by a removed signatory and presented after the change takes effect shall not be honoured, irrespective of the date appearing on the instrument.

11.4 Death, Insolvency or Incapacity of a Signatory

On notice of the death, insolvency or adjudged incapacity of an authorised signatory, the Bank shall suspend the authority of that signatory immediately and shall inform the customer. Where the mandate cannot be satisfied without that signatory, operations shall remain suspended until a fresh mandate is received. Where the signatory is also a partner or proprietor, Section 17 applies.

11.5 Indicative Transaction Limits

The following per-day limits apply unless a lower limit has been set by the customer or a higher limit has been sanctioned under the relationship documentation.

Channel	Starter	Business	Trade	Premium
ATM cash withdrawal	Rs. 50,000	Rs. 1,00,000	Rs. 2,00,000	Rs. 2,00,000
Debit card purchase	Rs. 2,00,000	Rs. 5,00,000	Rs. 5,00,000	Rs. 10,00,000
Internet banking transfer	Rs. 10,00,000	Rs. 50,00,000	Rs. 1,00,00,000	Rs. 5,00,00,000
Bulk payment file upload	Not available	Rs. 50,00,000	Rs. 2,00,00,000	Rs. 10,00,00,000
Branch cash withdrawal	Rs. 5,00,000	Rs. 10,00,000	Rs. 25,00,000	Rs. 50,00,000

11.6 Maker-Checker on Digital Channels

Every current account enabled for internet banking shall be configured with maker-checker authorisation, under which a transaction initiated by one user is released by a different user. A customer may request single-user operation only for accounts with a single authorised signatory, and shall then execute a written acknowledgement of the associated risk.

11.7 Cooling Period for New Payees

A cooling period of thirty minutes shall apply between the registration of a new payee and the first transfer to that payee, during which transfers to the new payee shall be limited to Rs. 25,000 in aggregate. The customer may not waive the cooling period.

11.8 Standing Instructions

Standing instructions shall be executed on the due date subject to availability of funds. Where funds are insufficient, the instruction shall be attempted once more on the next business day, after which it shall lapse for that cycle and a charge may be levied. Failure over three consecutive cycles shall result in cancellation after notice to the customer.

12. Cheque Operations and Collection

12.1 Issue of Cheque Books

Cheque books shall be issued on written or electronic request from a person authorised under the mandate, and shall be dispatched to the recorded address of the customer or delivered at the branch against acknowledgement. The issue of every cheque book shall be advised to the customer through the registered communication channels.

12.2 Payment of Cheques

A cheque shall be paid where it conforms to the mandate, the signature or signatures match the specimens on record, the instrument is otherwise in order, and the available balance is sufficient. The Bank shall not create an unauthorised overdraft. Where a sanctioned overdraft facility exists, payment may be made within the sanctioned limit.

12.3 Positive Pay

For cheques of value Rs. 5,00,000 and above, the customer shall confirm the particulars of the instrument through the positive pay facility before presentation. A cheque of that value presented without a matching positive pay confirmation shall be returned. The Bank shall make the facility available through internet banking, mobile banking, the contact centre and branches, and shall not levy a charge for its use.

12.4 Stop Payment

A stop payment instruction shall be accepted from a person authorised under the mandate and shall be given effect immediately on receipt. The Bank shall confirm the registration of the instruction to the customer. A stop payment instruction shall not be accepted in respect of an instrument already paid.

12.5 Return of Instruments

Where an instrument is returned, the return memo shall state the reason in the prescribed language and shall be signed by an authorised officer. Returns are classified as:

- **Financial returns**, arising from insufficiency of funds, which attract a charge and count towards the review threshold in paragraph 12.6.
- **Technical returns**, arising from a defect in the instrument, non-conformity with the mandate, or an operational reason, which attract no charge and do not count towards the review threshold.

12.6 Repeated Financial Returns

Where four or more cheques drawn on an account are returned for insufficiency of funds in a financial year, each of value Rs. 1,00,000 or above, the relationship shall be reviewed by the Branch Manager, the customer shall be advised in writing, and no fresh cheque book shall be issued without the approval of the Regional Head. Where the pattern continues in the following financial year, the Bank may withdraw cheque facility from the account after giving thirty days' notice, and may close the account under paragraph 16.4.

12.7 Collection of Instruments

Instruments deposited for collection shall be credited in accordance with the Bank's Cheque Collection Policy. Where credit is delayed beyond the timeline in that policy, compensation shall be paid at the rate specified therein, automatically and without the customer having to claim it.

12.8 Post-Dated and Stale Instruments

An instrument presented before the date appearing on it shall be returned as post-dated. An instrument presented more than three months after the date appearing on it shall be returned as stale. Neither return attracts a charge.

13. Cash Management and Deposit Handling

13.1 Acceptance of Cash

Cash shall be accepted only from the customer or a person authorised in writing by the customer. Deposits into a current account by a third party shall be accepted only where the depositor's identity is recorded and the customer has authorised third-party deposits into the account.

13.2 Reporting of Large Cash Transactions

Cash transactions of Rs. 10,00,000 and above in a single transaction, and series of connected cash transactions aggregating to that amount within a month, shall be reported in accordance with the AML/CFT Policy. The customer shall not be informed that a report has been or may be filed.

13.3 Doorstep Banking

Doorstep cash pickup and delivery may be offered to Trade, Premium and Corporate Current customers under a written service agreement specifying the service window, the limits, the insurance arrangement and the point at which the Bank assumes custody of the cash. The Bank assumes custody on acknowledgement by the collecting agent, and bears the risk of loss thereafter.

13.4 Soiled, Mutilated and Counterfeit Notes

Soiled and mutilated notes tendered for deposit shall be accepted and exchanged in accordance with the applicable note refund rules. A note identified as counterfeit shall be impounded, an acknowledgement shall be issued to the tenderer, and the matter shall be reported to the authorities in the prescribed manner. The value of an impounded note shall not be credited to the account and no charge shall be levied on the customer for the impounding.

13.5 Cash Deposit Machines

Deposits at cash deposit machines shall be credited on a real-time basis. Where a machine records a discrepancy between the amount keyed and the amount counted, the credit shall be raised for the counted amount and the customer shall be advised within one business day. Disputes arising from machine deposits shall be resolved within seven business days of report.

14. Overdraft, Sweep and Ancillary Facilities

14.1 Overdraft

An overdraft facility may be linked to a current account only under a sanction issued in accordance with the Credit Policy. The sanction shall specify the limit, the rate of interest, the security, the review date and the events of default. Interest on an overdraft shall be charged monthly and shall be shown separately in the account statement.

14.2 Unauthorised Overdrafts

The Bank shall not permit an account to be overdrawn in the absence of a sanction. Where an unauthorised overdraft arises through an operational error, it shall be regularised immediately, no interest or charge shall be recovered from the customer, and the error shall be reported to Operations Risk within one business day. Where an unauthorised overdraft arises through customer action, it shall be regularised within three business days and reported to the Regional Head.

14.3 Sweep Arrangements

A customer may authorise the automatic transfer of balances above a stated threshold into a linked term deposit, and the automatic reverse transfer of funds required to meet debits. The arrangement shall record the threshold, the multiple in which transfers occur, the tenor of the deposit, and the basis on which the reverse transfer is effected. The customer shall be informed in writing that a reverse transfer may result in the deposit earning a reduced rate for the period it was held.

14.4 Virtual Account Numbers

Premium and Corporate Current customers may be provided with virtual account numbers for the identification of receivables. Virtual account numbers are reference identifiers mapped to the underlying current account. They do not constitute separate accounts, do not attract separate deposit insurance, and shall not be described to the customer as accounts.

14.5 Host-to-Host and API Connectivity

Connectivity between the customer's systems and the Bank shall be established only under a written agreement specifying the authentication mechanism, the encryption standard, the file formats, the cut-off times, the reconciliation procedure and the incident escalation path. Access credentials shall be issued to named individuals and shall be revoked within one business day of the Bank being informed that an individual has ceased to be authorised.

14.6 Ancillary Services

Ancillary services including bulk payment processing, direct debit mandates, tax payment facilities and payment gateway settlement may be enabled on a current account subject to the applicable service terms. Enabling any ancillary service requires an instruction from a person authorised under the mandate.

15. Inoperative and Dormant Accounts

15.1 Classification

An account in which no customer-induced transaction has taken place for a continuous period of twelve months shall be flagged as inactive. An account in which no customer-induced transaction has taken place for a continuous period of twenty-four months shall be classified as inoperative and, for the purposes of this Policy, dormant. Entries raised by the Bank on its own account, including the recovery of charges, do not constitute customer-induced transactions.

15.2 Preventive Communication

Notice shall be issued to the customer at three months, two months and one month before an account is due to be classified as inoperative, addressed to the recorded contact points of the customer and to each authorised signatory. The notice shall explain the consequences of classification and the procedure for reactivation.

15.3 Consequences of Classification

- Debit transactions through all channels shall be blocked. Credits shall continue to be accepted.
- No charge shall be levied for the account being inoperative, and no non-maintenance charge shall be levied.
- The account shall be segregated in the Bank's systems, with debit access requiring dual authorisation.
- Any linked overdraft facility shall be referred to Credit Administration for review.

15.4 Reactivation

An inoperative account may be reactivated at any branch, without charge, on a written request from a person authorised under the mandate, together with current identification, a confirmation of the current list of authorised signatories and beneficial owners, and completion of periodic updation if due. Reactivation shall be completed within three business days of a complete request. Where the customer's constitution or ownership has changed since the account became inoperative, Section 6.5 applies.

15.5 Unclaimed Deposits

The balance in an account which has remained unclaimed for ten years shall be transferred to the fund prescribed for unclaimed deposits. Transfer to the fund does not extinguish the claim. On a claim being made, the Bank shall pay the amount together with interest as prescribed and shall recover from the fund in the prescribed manner. The Bank shall maintain a public search facility for unclaimed deposits on its website.

15.6 Deposit Insurance

Balances in current accounts are insured by the deposit insurance corporation on the same basis and up to the same limit as savings deposits, currently Rs. 5,00,000 per depositor per bank in the same right and capacity. All deposits of a depositor held in the same right and capacity are aggregated for the purpose of the limit. Balances of a sole proprietorship concern are aggregated with the personal deposits of the proprietor, since the proprietor and the concern are the same legal person. Staff shall not represent that the limit applies separately to each account.

16. Modification, Transfer and Closure

16.1 Change of Particulars

A customer may request a change to recorded particulars, including registered address, place of business, contact details, mandate, authorised signatories and beneficial ownership. Requests shall be given effect within the turnaround times in Annexure B and confirmed to the customer. Any change to a contact detail shall be confirmed to both the old and the new contact point.

16.2 Portability of Account

An account may be transferred from one branch to another on written request, without change of account number and without charge, provided the customer's principal place of business falls within the service area of the transferee branch or the customer records the reason for the transfer. Transfer shall be completed within five business days.

16.3 Closure at Customer Request

An account shall be closed on the written request of the persons competent to give it under the mandate. The Bank shall verify the authority of the requester, recover unused cheque leaves and cards or obtain a declaration where these cannot be surrendered, settle outstanding charges, cancel linked facilities and ancillary services, remit the closing balance as directed, and complete the closure within five business days of a complete request. A closure confirmation shall be issued. The Bank shall not require the customer to give a reason for closure and shall not make closure conditional on acceptance of a retention offer.

16.4 Closure by the Bank

The Bank may close an account, after giving not less than thirty days' notice in writing stating the reason, where:

- The account has been used for a purpose that is unlawful or contrary to the terms and conditions.
- The customer has failed to complete periodic updation despite three notices.
- The customer has furnished information later found to be false in a material particular, including the declaration under Section 8.
- The exposure band determination under paragraph 8.4 requires it.
- The pattern of cheque returns under paragraph 12.6 continues after withdrawal of cheque facility.
- Continuation exposes the Bank to unacceptable regulatory or reputational risk, on the approval of the Head of Compliance.

Where an account is closed by the Bank, the closing balance shall be remitted to the customer, and no part of the balance shall be forfeited or withheld except under valid legal process.

16.5 Freezing and Attachment

The Bank shall give effect to an order of freezing or attachment issued by a competent authority. The customer shall be informed of the order and the issuing authority unless the Bank is prohibited from doing so. The freeze shall be limited to the extent specified in the order, and any balance in excess of that extent shall remain available to the customer.

17. Death, Dissolution and Succession

17.1 Sole Proprietorship

A sole proprietorship concern has no legal personality separate from the proprietor. On the death of the proprietor, the account ceases to be operable and the balance forms part of the estate of the proprietor. Operations shall be stopped immediately on notice of death, and the balance settled in favour of the nominee where a nomination subsists, or otherwise in favour of the legal heirs, on the same basis as set out in the Savings Account Policy for accounts of deceased depositors. A surviving spouse or child continuing the business does not acquire the right to operate the account, and a fresh account shall be opened in the name of the person now carrying on the business.

17.2 Nomination in Proprietorship Accounts

Nomination is available in respect of a sole proprietorship current account, the proprietor being the depositor. The facility shall be actively offered at account opening, and a declinature shall be recorded in writing and signed by the proprietor. Nomination is not available in respect of accounts of partnerships, companies, trusts, societies or other entities having a legal personality separate from their members.

17.3 Death of a Partner

On the death of a partner, the firm stands dissolved unless the partnership deed provides for continuation. Operations shall be stopped immediately on notice of death. Where the deed provides for continuation, operations may resume on receipt of a fresh mandate executed by the continuing partners together with a certified copy of the relevant clause of the deed. Where the deed does not so provide, the balance shall be dealt with only on the joint instruction of the surviving partners and the legal representatives of the deceased partner.

17.4 Retirement or Admission of a Partner

The retirement of a partner or the admission of a new partner requires a fresh mandate and a certified copy of the supplementary deed. Instruments signed by a retired partner and presented after the Bank has notice of the retirement shall not be honoured. Where the reconstitution changes the legal personality of the firm, Section 6.5 applies.

17.5 Death of a Director or Authorised Signatory of a Company

The death of a director or authorised signatory does not affect the existence of the company. Operations continue in accordance with the mandate, save that the authority of the deceased signatory ceases immediately. Where the mandate cannot be satisfied without that signatory, operations shall remain suspended until a fresh board resolution is received.

17.6 Insolvency, Winding Up and Liquidation

On receipt of notice that a customer has been admitted to an insolvency resolution process, or that an order of winding up has been made, operations in the account shall be suspended immediately and the matter referred to Legal within one business day. Thereafter the account shall be operated only in accordance with the directions of the resolution professional, liquidator or the adjudicating authority, and against documentation verified by Legal.

17.7 Dissolution of a Society, Club or Association

On dissolution, the balance shall be dealt with in accordance with the dissolution clause of the constitutional document and the resolution of the competent body, verified by Legal. Where the constitutional document is silent, the Bank shall require an order of the competent authority before disbursing the balance.

17.8 Turnaround Time

A complete claim in respect of a deceased sole proprietor shall be settled within fifteen days of receipt. Where the claim cannot be settled within that period, the claimant shall be informed in writing of the reason and the expected date of settlement. Where the delay is attributable to the Bank, interest shall be paid for the period of delay at the prevailing savings deposit rate plus two per cent per annum.

18. Unauthorised Transactions and Customer Liability

18.1 Reporting Channels

The Bank shall maintain a round-the-clock reporting facility comprising a toll-free telephone number, an in-application reporting option and a dedicated electronic mail address, through which a customer may report an unauthorised electronic transaction. On receipt of a report the Bank shall immediately acknowledge it, record the date and time of receipt, issue a reference number and block the affected instrument or channel.

18.2 Transaction Alerts

An alert shall be sent for every electronic transaction to the registered mobile number and electronic mail address of the customer, and, where the customer has so requested, to each authorised signatory. Alerts shall carry the facility to report an unauthorised transaction directly.

18.3 Liability Framework

Current account customers are, for the most part, entities rather than individuals, and the liability framework reflects the greater control such customers exercise over their own systems and credentials. Liability shall be determined as follows.

Circumstance	Customer liability
Contributory fraud, negligence or deficiency on the part of the Bank	Nil, regardless of whether the customer reported the transaction
Third-party breach where the deficiency lies neither with the Bank nor with the customer, reported within 3 working days	Nil
Same, reported within 4 to 7 working days	Lower of transaction value or Rs. 25,000
Same, reported beyond 7 working days	As determined under paragraph 18.5
Loss due to customer negligence, including sharing of credentials or failure to revoke access of a departed employee, reported before the Bank is informed	Full, up to the point of reporting
Loss due to customer negligence, after the customer reports	Nil

18.4 Shadow Credit and Resolution

The Bank shall credit the disputed amount to the customer's account within ten working days of the report, notionally and without prejudice to the outcome of the investigation. The investigation shall be completed and the customer informed within ninety days. Where the investigation establishes customer liability, the shadow credit shall be reversed after fifteen days' notice with reasons. Where the investigation is not completed within ninety days, the shadow credit shall stand confirmed and shall not thereafter be reversed.

18.5 Burden of Proof

The burden of proving customer liability rests with the Bank. Where the Bank asserts customer negligence, it shall record the specific evidence relied upon, and the assertion shall be approved by an officer not below the rank of Vice President.

18.6 Compensation

Where the Bank fails to meet a timeline in this Section, the customer shall be compensated at the rate of Rs. 250 per day of delay, credited automatically without the customer having to claim it.

19. Anti-Money Laundering Obligations

19.1 Framework

Current accounts are subject to the Bank's anti-money laundering and counter-financing of terrorism framework. This Section states the obligations specific to current accounts; the complete framework is set out in the Bank's AML/CFT Policy.

19.2 Transaction Monitoring

All current accounts shall be subject to automated transaction monitoring against scenarios calibrated to the customer's constitution, declared activity, risk category and expected transaction profile. The expected transaction profile shall be captured at onboarding and refreshed at every periodic update. Alerts shall be reviewed by the Financial Intelligence Unit within the timelines in the AML/CFT Policy.

19.3 Indicators Warranting Attention

- Turnover materially inconsistent with the declared activity, the scale of the business or the customer's tax filings.
- Cash deposits or withdrawals disproportionate to the nature of the business, or structured just below reporting thresholds.
- Funds received from and immediately transmitted to third parties, with the account retaining a negligible balance.
- Credits from a large number of unrelated parties into the account of an entity whose declared activity does not involve retail collection.
- Transfers to or from jurisdictions with which the customer has no declared business connection.
- Frequent changes of authorised signatories or beneficial owners without a corresponding change in the business.
- Substantial activity in an account shortly after reactivation from dormancy.
- Reluctance to provide information about the source of funds or the identity of counterparties.

19.4 Shell and Front Entity Risk

Particular care shall be taken where an entity has no operational premises, no employees, a registered address shared with a large number of unrelated entities, nominee directors or shareholders, or an ownership chain passing through jurisdictions offering limited transparency. Where two or more such features are present, the relationship shall be referred to the Financial Intelligence Unit before activation.

19.5 Reporting

The Bank shall file the prescribed reports with the financial intelligence authority within the prescribed timelines. Staff shall not disclose to a customer, or to any other person, that a report has been or may be filed, or that an account is under investigation, notwithstanding any customer request or complaint.

19.6 Record Retention

Records of customer identity and of transactions shall be retained for five years from the date of the transaction or from the date of cessation of the relationship, whichever is later. Where an account is the subject of an investigation, records shall be retained until the investigation and any resulting proceedings are concluded.

20. Grievance Redressal

20.1 Commitment

The Bank commits to resolving customer grievances fairly, promptly and without requiring the customer to escalate. Every grievance shall be acknowledged, tracked to closure through a unique reference number, and closed only with a substantive response.

20.2 Channels

A grievance may be lodged at any branch, through the relationship manager, through the contact centre, through the complaint form on the Bank's website or mobile application, by letter, or by electronic mail to the published grievance address. A grievance lodged through any channel shall enter the same tracking system.

20.3 Escalation Matrix

Level	Authority	Resolution time
1	Branch Manager or Transaction Banking Service Manager	7 business days
2	Regional Nodal Officer	14 business days
3	Principal Nodal Officer	21 business days
4	Internal Ombudsman	30 days
5	External Banking Ombudsman	As prescribed by the scheme

The Bank shall inform the customer of the right to approach the external Banking Ombudsman in every final response.

20.4 Internal Ombudsman

Every grievance that the Bank proposes to reject wholly or partly shall be referred to the Internal Ombudsman before the decision is communicated. Where the Internal Ombudsman disagrees with the proposed rejection, the matter shall be decided in the customer's favour unless the Managing Director records reasons in writing for a contrary decision.

20.5 Root Cause Analysis and Publication

The Customer Service Committee shall review grievance data each quarter, identify the ten most frequent root causes, and commission corrective action with named owners and dates. The Bank shall publish quarterly on its website the number of grievances received, resolved and pending, categorised by type, together with cases referred to the Internal Ombudsman and their outcomes.

21. Confidentiality and Data Protection

21.1 Duty of Confidentiality

The Bank owes a duty of confidentiality in respect of a customer's account and affairs, which survives the closure of the account. Information relating to a customer shall not be disclosed except where compelled by law or by order of a competent authority, where there is a duty to the public to disclose, where the interests of the Bank require disclosure and then only to the minimum extent necessary, or where the customer has given express and informed consent.

21.2 Disclosure to Lenders and Credit Information Companies

The Bank may disclose to credit information companies, and to lenders of the customer, such information as is required to be furnished under law or under the credit discipline framework in Section 8. The customer shall be informed at account opening that such disclosure will be made. Disclosure under this paragraph does not require separate consent on each occasion.

21.3 Collection and Use

The Bank shall collect only such information as is necessary for the purposes of the relationship, shall inform the customer of the purposes at the time of collection, and shall not use the information for any incompatible purpose. Information collected for a regulatory purpose shall not be used for marketing.

21.4 Access and Correction

A customer is entitled to access the information held about it, to obtain a copy, and to require correction of any inaccuracy. A request for correction shall be given effect within ten business days or refused in writing with reasons.

21.5 Security and Access Control

The Bank shall maintain administrative, technical and physical safeguards appropriate to the sensitivity of the information held. Access shall be granted on the principle of least privilege and shall be logged. Access logs shall be reviewed monthly and anomalies investigated. Credentials issued for host-to-host or API connectivity shall be reviewed quarterly.

21.6 Outsourcing

Where a function involving access to customer information is outsourced, the service provider shall be bound by confidentiality obligations no less stringent than those in this Section, shall be subject to audit by the Bank, and shall not sub-contract without written consent. Outsourcing does not diminish the Bank's responsibility to the customer.

21.7 Breach Notification

A suspected breach shall be reported to the Chief Information Security Officer within two hours of detection. Where a breach is confirmed and is likely to cause harm, affected customers shall be notified without undue delay, with a description of the information involved and the steps the customer should take.

22. Roles, Compliance Monitoring and Policy Review

22.1 Responsibility Matrix

Role	Responsibility
Board of Directors	Approval of the Policy; oversight of its operation
Risk Management Committee	Recommendation of the Policy; review of exception reporting
Product and Pricing Committee	Charges, balance obligations and limits within the approved methodology
Head of Retail Liabilities	Policy ownership for proprietorship, professional and small entity accounts
Head of Transaction Banking	Policy ownership for corporate and institutional accounts
Head of Credit Administration	Exposure verification and determination under Section 8
Head of Compliance	Regulatory alignment; Exception Register; closure approvals under 16.4
Branch Manager	Application at the point of contact; charge waivers within limit
Regional Head	Second-level approvals; oversight of branch exceptions
Internal Audit	Independent assurance

22.2 Approval Authority for Exceptions

Exception type	Approving authority
Waiver of non-maintenance charge, first in a financial year	Branch Manager
Waiver of non-maintenance charge, second	Regional Head
Waiver of non-maintenance charge, third and beyond	Head of owning business group
Opening of Zero Balance Current account	Regional Head
Acceptance of an unregistered entity	Regional Head
Fresh cheque book after four financial returns	Regional Head
Enhanced due diligence relationship acceptance	Assistant Vice President
Assertion of customer negligence under 18.5	Vice President
Account for a wilful defaulter or fraud-classified associate	Head of Credit Administration
Any departure from Section 8	Head of Compliance with Head of Credit Administration
Closure of account for regulatory risk	Head of Compliance

22.3 Monitoring

Compliance shall conduct thematic testing of current account operations at least twice each financial year, covering account opening quality, constitution-wise documentation completeness, beneficial ownership identification, credit discipline verification under Section 8, charge levy accuracy, cash handling, dormancy

handling and grievance closure quality. Findings shall be reported to the Risk Management Committee with agreed remediation and target dates.

22.4 Key Indicators

- Proportion of accounts opened with complete constitution-wise documentation at first submission.
- Proportion of accounts with a completed exposure band determination on file.
- Proportion of accounts with beneficial ownership identified to a named natural person.
- Proportion of accounts overdue for periodic updation.
- Accounts converted to collection accounts or closed under paragraph 8.6.
- Cheque return ratio and accounts crossing the review threshold in paragraph 12.6.
- Unauthorised overdrafts arising, by cause.
- Grievances received per thousand accounts, and the proportion resolved at Level 1.

22.5 Training

Every member of staff in a customer-facing or account-opening role shall complete certification on this Policy within thirty days of joining and annually thereafter. Certification shall be a condition of continued authorisation to open current accounts.

22.6 Policy Review and Amendment

This Policy shall be reviewed at least once every financial year by the owning business groups in consultation with Compliance, Risk, Credit Administration, Operations and Legal, and placed before the Board through the Risk Management Committee. An interim amendment may be initiated at any time on account of a change in regulatory direction, the introduction or withdrawal of a product, a finding from audit or thematic testing, or a material adverse trend in grievance data. Where a regulatory direction takes effect before the Policy can be amended, the direction shall apply from its effective date and Compliance shall issue an interim instruction. An approved amendment shall be communicated to all staff within seven days, incorporated into training within thirty days, and notified to customers where it affects them. The version history is maintained in Annexure D and superseded versions are retained for ten years.

Annexure A: Constitution-wise Documentation

A.1 Common Requirements for All Constitutions

- Completed account opening form and mandate.
- Permanent account number of the entity.
- Officially valid document and photograph for every authorised signatory.
- Officially valid document for every beneficial owner identified under paragraph 7.3.
- Declaration of credit facilities under paragraph 8.2.
- Proof of the principal place of business.
- Site verification report under paragraph 7.6, where applicable.

A.2 Additional Requirements by Constitution

Constitution	Additional documents
Sole proprietorship	Any two of: tax registration certificate, shop and establishment licence, trade licence, professional tax registration, importer-exporter code, utility bill in the concern's name, income tax return of the proprietor showing the concern's income, certificate from a practising chartered accountant
Partnership firm	Partnership deed; registration certificate where registered; letter or resolution authorising the account and naming signatories; permanent account number of the firm
Limited liability partnership	Incorporation certificate; LLP agreement; identification number; resolution of designated partners
Private or public company	Certificate of incorporation; memorandum and articles of association; board resolution authorising the account and naming signatories; list of directors with identification numbers; certificate of commencement where applicable
Hindu Undivided Family	Declaration by the Karta; list of coparceners; permanent account number of the family
Trust	Trust deed; registration certificate; resolution of trustees; list of trustees, settlor and beneficiaries
Society, club or association	Registration certificate; memorandum and rules; resolution of the managing committee; list of office bearers
Governance body	Notification or order constituting the body; authorisation from the competent authority; specimen signatures attested by the controlling office
Professional practice	Certificate of practice or registration with the professional body; tax registration where applicable

A.3 Officially Valid Documents for Individuals

Any one of the following, containing name, photograph and address: passport; driving licence; voter identification card; job card issued under a national employment guarantee scheme signed by a State

Government officer; letter issued by the national identity authority containing name, address and identity number; or any other document notified by the Central Government in consultation with the regulator. Where the document does not contain the current address, a deemed officially valid document not older than two months is accepted, subject to an updated document being submitted within three months.

Annexure B: Turnaround Time Matrix

Service request	Turnaround time
Account opening, complete documentation and Section 8 clearance	2 business days
Site verification report	3 business days from application
Exposure band determination by Credit Administration	2 business days
Welcome communication	2 business days
Registration or variation of nomination, proprietorship accounts	2 business days
Change of address	3 business days
Change of authorised signatories	3 business days
Change of mandate	3 business days
Registration of stop payment instruction	Immediate
Positive pay confirmation	Immediate
Cheque book issue	5 business days
Reactivation of inoperative account	3 business days
Transfer of account between branches	5 business days
Account closure	5 business days
Duplicate statement	3 business days
Balance certificate	3 business days
Cash deposit machine dispute	7 business days
Acknowledgement of unauthorised transaction report	Immediate
Shadow credit for disputed transaction	10 working days
Investigation of disputed transaction	90 days
Settlement of deceased proprietor claim	15 days
Revocation of connectivity credentials	1 business day
Grievance, Level 1	7 business days
Grievance, Level 2	14 business days
Grievance, Level 3	21 business days
Correction of customer information	10 business days

Annexure C: Abbreviations

Abbreviation	Expansion
AML	Anti-Money Laundering
API	Application Programming Interface
AQB	Average Quarterly Balance
CDD	Customer Due Diligence
CFT	Counter-Financing of Terrorism
CISO	Chief Information Security Officer
EDD	Enhanced Due Diligence
FIU	Financial Intelligence Unit
HUF	Hindu Undivided Family
KYC	Know Your Customer
LLP	Limited Liability Partnership
NOC	No Objection Certificate
OVD	Officially Valid Document
PEP	Politically Exposed Person
TAT	Turnaround Time

Annexure D: Version History

Version	Date	Approved by	Summary of change
1.0	12 April 2021	Board of Directors	Initial issue
1.1	30 November 2021	Product and Pricing Committee	Revision of cash handling entitlements
2.0	08 August 2022	Board of Directors	Introduction of Section 8 credit discipline framework; exposure band treatment
2.1	16 March 2023	Product and Pricing Committee	Revision of Schedule of Charges; introduction of Trade Current variant
3.0	25 January 2025	Board of Directors	Introduction of positive pay requirement; rewrite of Sections 12 and 14; addition of virtual account provisions
3.1	11 November 2025	Product and Pricing Committee	Revision of transaction limits; maker-checker made default
3.2	14 April 2026	Board of Directors	Current version. Strengthened beneficial ownership thresholds; expanded Section 17; addition of Annexure B
