Document owner	Head of Cards and Payments
Reviewed by	Compliance, Risk, Operations, Legal
Recommended by	Risk Management Committee
Approved by	Board of Directors
Date of approval	14 April 2026
Effective date	01 May 2026
Next review due	31 March 2027
Review frequency	Annual, or earlier on regulatory change
Classification	Internal
Distribution	All branches, all business units, all outsourced partners
Supersedes	Version 5.0 dated 21 January 2026

Status of this document. This Policy is an internal document of FinTrust Bank Limited. It states the Bank's own standards and the manner in which its staff are required to act. It is not a contract with any customer. The contractual relationship between the Bank and a cardholder is governed by the customer-facing Debit Card Terms and Conditions, which are drafted to give effect to this Policy. Where those Terms are silent, or are less favourable to the customer than this Policy, this Policy shall guide the Bank's conduct.

Monetary references. All amounts are expressed in Indian Rupees and are indicative for the purposes of this Policy. Prevailing charges and limits are those published in the current Schedule of Charges at branches and on the Bank's website, which shall prevail over the indicative figures reproduced in this document.

Interpretation. Words importing the singular include the plural and words importing one gender include every gender. A reference to a Section is a reference to a Section of this Policy. A reference to a linked account is a reference to the deposit account against which the card is issued. Headings are for convenience only and do not affect interpretation.

1. Purpose and Objectives

1.1 Purpose

This Debit Card Policy ("the Policy") establishes the principles, standards and operating rules governing the issuance, personalisation, delivery, activation, usage, servicing, blocking, replacement and withdrawal of debit cards by FinTrust Bank Limited ("FinTrust" or "the Bank"). A debit card is an access device linked to a deposit account, through which the customer draws on funds already standing to the credit of that account.

1.2 Relationship with Other Documents

A debit card is an access mechanism, not a product in its own right. The deposit account to which a card is linked is governed by the Savings Account Policy, the Current Account Policy or the Salary Account Policy as the case may be, and the provisions of those policies relating to the account continue to apply. This Policy governs the card. Where a provision of this Policy conflicts with the policy governing the linked account in respect of the account itself, the latter prevails; in respect of the card, this Policy prevails.

This Policy is an internal document. It is distinct from the customer-facing Debit Card Terms and Conditions issued to the cardholder, which are drafted to give effect to this Policy. Where the Terms and Conditions are silent, or are less favourable to the customer than this Policy, this Policy shall guide the Bank's conduct.

1.3 Objectives

- To ensure that a debit card is issued only to a customer entitled to operate the linked account, and only with that customer's informed consent.
- To ensure that a card never permits a debit exceeding the funds available in the linked account, save under a sanctioned facility.
- To ensure that the physical and logical security of card stock, credentials and cardholder data is maintained throughout the card lifecycle.
- To ensure that failed transactions are reversed promptly and that compensation for delay is paid without the customer having to ask.
- To ensure that liability for unauthorised transactions is allocated in accordance with the regulatory framework and that the burden of establishing customer liability rests with the Bank.
- To provide staff with unambiguous guidance so that discretion is exercised consistently and exceptions are properly authorised and recorded.

1.4 Guiding Principles

Consent, not default. A card is issued because the customer asked for it or accepted an offer of it, and is enabled for a channel because the customer enabled it.

Least capability by default. A card is issued with the narrowest set of capabilities consistent with the customer's stated needs, and capability is added at the customer's instance rather than removed at the customer's request.

Prompt restitution. Where the Bank's systems fail, the customer is made whole first and the reconciliation follows.

Custody discipline. Card stock, credentials and cardholder data are handled under dual control at every stage at which they are capable of misuse.

2. Scope and Applicability

2.1 Scope

This Policy applies to all debit cards issued by FinTrust Bank Limited against deposit accounts maintained at any domestic branch, to all card variants listed in Section 5, and to all channels on which those cards may be used.

2.2 Persons Bound by the Policy

The Policy binds all employees of the Bank, all business correspondents, direct selling agents and outsourced service providers engaged in relation to debit card issuance or servicing, all card personalisation bureaux and logistics providers engaged by the Bank, and all third parties operating branded or co-branded FinTrust card channels.

2.3 Exclusions

This Policy does not govern:

- Credit cards, which are governed by the Credit Card Policy and by the customer-facing Credit Card Terms and Conditions.
- Prepaid payment instruments, gift cards and travel cards, which are governed by the Prepaid Instruments Policy.
- Corporate purchase cards and commercial cards issued against a credit facility, which are governed by the Credit Policy.
- Automated teller machine operations as an estate, including siting, cash replenishment and physical security, which are governed by the ATM Operations Policy. The treatment of a failed transaction at an automated teller machine is nonetheless governed by Section 14 of this Policy.
- Merchant acquiring, which is governed by the Merchant Acquiring Policy.

2.4 Conflict and Precedence

In the event of conflict between this Policy and any statutory provision, regulatory direction, card network rule having mandatory effect, or judicial order, the latter shall prevail and the Policy shall be deemed amended to that extent with effect from the date the external requirement takes effect. In the event of conflict between this Policy and any internal circular, this Policy shall prevail unless the circular expressly records that it has been approved as an amendment under Section 22.

3. Definitions

Acquirer means the bank or entity that maintains the relationship with a merchant or deploys an automated teller machine and routes a transaction into the network on behalf of that merchant or machine.

Additional Factor of Authentication means a second, independent means of verifying that a transaction is authorised by the cardholder, such as a personal identification number or a one-time password.

Card Network means the payment network through which a transaction is switched, being either a domestic network or an international network with which the Bank has an arrangement.

Cardholder means the customer in whose name a debit card is issued, being a person entitled to operate the linked account.

Hotlisting means the permanent blocking of a card such that it cannot be unblocked, applied on report of loss, theft or compromise.

Issuer means the Bank, in its capacity as the entity that issued the card and maintains the linked account.

Linked Account means the deposit account to which a debit card is attached and against which transactions on the card are debited.

Personalisation means the process of encoding a card with the cardholder's data, embossing or printing it, and preparing it for dispatch.

Reconciliation Difference means a difference between the amount debited to a linked account and the amount evidenced as having been disbursed or settled.

Temporary Block means a reversible block applied by the customer or the Bank, which may be lifted.

Tokenisation means the replacement of the card number with a surrogate value that is specific to a device, a merchant or a channel and that has no value outside that context.

Working Day, for the purposes of Section 14 only, means a day on which the Bank's clearing and settlement systems operate, excluding Sundays and declared holidays.

4. Governance and Regulatory Framework

4.1 Regulatory Basis

Debit cards are issued by FinTrust under the licence granted to it as a banking company and are subject to directions issued from time to time by the banking regulator, including directions on the issue of debit cards, customer protection and limiting liability for unauthorised electronic transactions, the harmonisation of turnaround times for failed transactions, card-not-present authentication, tokenisation of card data, and the storage of payment system data. The Bank is additionally bound by the operating rules of each card network of which it is a member.

4.2 Policy Ownership

The Cards and Payments Group is the owner of this Policy. The Head of Cards and Payments is accountable for its accuracy, currency and internal consistency, and for the alignment of the customer-facing Debit Card Terms and Conditions with it.

4.3 Approval Authority

This Policy is approved by the Board of Directors on the recommendation of the Risk Management Committee. Board approval is required for adoption of the Policy, for any amendment to Sections 1, 2, 14, 15 and 22, for the adoption of a new card network arrangement, and for the introduction or withdrawal of a card variant. The Product and Pricing Committee may approve the charges in Section 11, the limits in Section 9 and the variant feature matrix in Annexure A.

4.4 Three Lines of Defence

Line	Function	Primary responsibility
First	Branches, card operations, ATM channel team, contact centre	Correct application of the Policy; issuance and custody controls; first-level dispute handling
Second	Compliance, Operations Risk, Information Security, Product	Policy design, monitoring, thematic testing, exception governance, security standards
Third	Internal Audit	Independent assurance on design adequacy and operating effectiveness

4.5 Exceptions

Any departure from a provision of this Policy constitutes an exception and requires prior written approval from the authority specified in Section 22. Exceptions shall be recorded in the Exception Register maintained by Compliance, shall specify a validity period not exceeding twelve months, and shall be reported in aggregate to the Risk Management Committee each quarter. No exception may be granted to Section 14, to paragraph 15.5 or to Section 19.

5. Debit Card Variants

5.1 Product Catalogue

Code	Variant	Ordinarily linked to	Network
DC-BAS	FinTrust Basic Debit	Basic Savings	Domestic only
DC-CLS	FinTrust Classic Debit	Regular Savings, Salary Standard	Domestic and international
DC-GLD	FinTrust Gold Debit	Prime Savings, Salary Plus, Business Current	Domestic and international
DC-PLT	FinTrust Platinum Debit	Privilege Savings, Salary Premium, Premium Current	Domestic and international
DC-BUS	FinTrust Business Debit	Current accounts of entities	Domestic and international
DC-SEN	FinTrust Senior Debit	Senior Savings	Domestic and international
DC-YTH	FinTrust Youth Debit	Youth Savings	Domestic only, no cash withdrawal above sub-limit

5.2 Assignment of Variant

The variant is assigned by reference to the variant of the linked account, as set out in paragraph 5.1. A customer may request a variant other than the one ordinarily assigned, and the request shall be granted where the customer meets the eligibility for that variant and accepts the applicable fee. Migration of the linked account to a different variant does not automatically change the card; the card shall be changed on the customer's request or at the next renewal.

5.3 Basic Debit Card

The Basic Debit Card is issued without any issuance fee and without any annual fee, and its issue and operation form part of the basic operations of a Basic Savings account. It is enabled for domestic use only. Charges shall not be levied on a Basic Debit Card without the approval of the Head of Retail Liabilities.

5.4 Youth Debit Card

The Youth Debit Card is issued to a minor operating an account independently under the Savings Account Policy. It carries a cash withdrawal sub-limit, is enabled for domestic use only, is not enabled for card-not-present transactions unless the guardian has requested it in writing, and shall not be issued with any facility permitting the account to be overdrawn.

5.5 Business Debit Card

A Business Debit Card is issued against a current account to a person named as an authorised signatory under the mandate recorded in the Current Account Policy. The card is issued in the name of that individual, and the individual's authority to use it derives from and is limited by the mandate. Where the mandate requires joint operation, a debit card shall not be issued unless the customer has expressly instructed that card transactions may be effected singly, and that instruction shall be recorded.

6. Eligibility and Issuance

6.1 Eligibility

A debit card may be issued to a customer who holds a deposit account with the Bank governed by one of the account policies, who is entitled to operate that account, whose customer due diligence is complete and current, and who has requested the card or accepted an offer of it.

6.2 Cards Not to Be Issued

A debit card shall not be issued:

- Where customer due diligence is incomplete, or where periodic updation is overdue and operations in the account are restricted.
- To a person who is not entitled to operate the linked account, including a nominee, a person holding a power of attorney unless expressly authorised by the customer to hold a card, and an employer in respect of a salary account.
- To a minor below the age at which independent operation is permitted under the Savings Account Policy.
- Against an account classified as inoperative, until the account is reactivated.
- Against an account that is frozen, other than a card issued and hotlisted for the purpose of preserving the account record.
- To a customer who has declined the card.

6.3 Consent

A card shall be issued only against a request or an accepted offer. The following do not constitute consent: the customer's silence; the customer's acceptance of the account terms and conditions; an instruction from an employer, a corporate customer's administrator or any other third party; or a bundled offer the customer has not separately accepted.

Where a card is issued as part of the standard bundle of an account variant and no fee is charged for it, the customer shall be told at account opening that the card is included and shall be given the opportunity to decline it. A declination shall be recorded.

6.4 Cards Issued in Error

Where a card is issued without valid consent, the Bank shall hotlist the card immediately on becoming aware, reverse every fee charged in respect of it, inform the customer of what occurred, and report the instance to Operations Risk within one business day. A card issued without consent shall not be activated in any circumstances, and no charge in respect of it shall be recovered.

6.5 Multiple Cards

A customer may hold one card per linked account. A second card against the same account may be issued to a joint holder who is entitled to operate the account, in that joint holder's own name. A customer may not hold two cards in the same name against the same account, except during the overlap period following a re-issue under Section 16.

6.6 Card in the Name of a Joint Holder

Where an account is held jointly and the mode of operation permits any holder to operate singly, a card may be issued to each holder on that holder's own request. Where the mode of operation requires joint

action, a card shall not be issued unless all holders have instructed in writing that card transactions may be effected singly.

7. Production, Personalisation and Dispatch

7.1 Production

Cards shall be produced by a personalisation bureau engaged under Section 20 and certified to the applicable payment card data security standard. The bureau shall hold no cardholder data beyond the period required to produce and dispatch the card, and shall certify destruction of the data thereafter.

7.2 Card Data Transmission

Files transmitted to the bureau shall be encrypted in transit and at rest, shall be transmitted only through the channel specified in the outsourcing agreement, and shall be accompanied by control totals that the bureau shall reconcile and confirm before production. A file that fails reconciliation shall be rejected in its entirety and shall not be partially produced.

7.3 Dispatch

Cards shall be dispatched to the address recorded for the customer in the linked account, by a mode requiring acknowledgement of receipt, and shall be dispatched inactive. A card shall not be dispatched to a branch for collection except at the customer's request, and shall not be handed to any person other than the customer against identification.

7.4 Address Changes

A card shall not be dispatched to an address recorded within the preceding thirty days unless the address change has been verified independently of the request that produced the card. Where both an address change and a card request are received in the same period, the card shall be dispatched only after the customer has confirmed both through a channel independent of the one used to make the requests.

7.5 Non-Delivery

Where a card is returned undelivered, it shall be held in the branch strongroom under dual control, the customer shall be informed within two business days, and the card shall be destroyed under dual control if not collected within sixty days. A returned card shall not be re-dispatched without fresh confirmation of the address from the customer.

7.6 Delivery Tracking

The Bank shall maintain a record, for each card, of the date of production, the date of dispatch, the tracking reference, the date of delivery or return, and the date of activation. Cards dispatched but neither delivered nor returned within fifteen days shall be traced, and shall be hotlisted and replaced free of charge if the trace is inconclusive.

7.7 Instant Issuance

Where the Bank issues an instantly personalised card at a branch, the card stock shall be held under the controls in Section 19, the card shall be issued to the customer against acknowledgement, and the credentials shall be set by the customer under Section 8. Instant issuance does not dispense with any requirement of consent, due diligence or record keeping.

8. Credentials and Authentication

8.1 Personal Identification Number

A personal identification number shall be set by the customer through a green personal identification number process at an automated teller machine, through the mobile application, through internet banking, or through the contact centre with authentication. The Bank shall not print, mail or otherwise communicate a personal identification number to a customer, and shall not store it in any form from which it can be recovered.

8.2 Prohibition on Disclosure

No member of staff shall ask a customer to disclose a personal identification number, a one-time password, a card verification value or any other credential, in any channel or for any reason. A member of staff who receives such information unsolicited shall not record it, shall tell the customer to change the credential, and shall report the instance to Information Security within one business day.

8.3 Change and Reset

A customer may change the personal identification number at any time and at no charge. Where a customer has forgotten the number, the reset shall follow the same process as the initial setting, and shall not be effected on the basis of information a third party could reasonably obtain.

8.4 Additional Factor of Authentication

Every transaction shall be authenticated with an additional factor, except:

- A contactless transaction at a point of sale within the per-transaction limit prescribed by the applicable regulation.
- A transaction at a merchant category exempted by the regulator, and only to the extent of that exemption.
- A recurring transaction registered with an additional factor at registration, within the limits and subject to the pre-debit notification in paragraph 10.5.

8.5 Failed Authentication

A card shall be temporarily blocked after three consecutive incorrect entries of the personal identification number in a single day. The block shall lift automatically at the start of the next day, or earlier on the customer's authenticated request. A temporary block under this paragraph shall not be converted into a hotlisting, and shall not attract any charge.

8.6 Credential Compromise

Where the Bank has reason to believe that a credential has been compromised, whether through a report by the customer, a network alert, a merchant breach notification or its own monitoring, it shall hotlist the affected cards, inform the affected customers, and issue replacement cards free of charge. The Bank shall not require the customer to establish that a compromise occurred before acting.

9. Activation, Controls and Limits

9.1 Activation

A card shall be dispatched inactive and shall be activated by the customer through the mobile application, internet banking, an automated teller machine, or the contact centre with authentication. The Bank shall not activate a card on the instruction of any person other than the customer.

9.2 Cards Not Activated

Where a card is not activated within sixty days of dispatch, the Bank shall contact the customer. Where it remains inactive for a further thirty days, the card shall be hotlisted, any fee charged in respect of it shall be reversed, and the customer shall be told. A card hotlisted under this paragraph may be replaced free of charge on request.

9.3 Default Capability

Every card shall be issued with the following default settings, which the customer may change at any time:

Capability	Default state
Domestic point of sale and e-commerce	On
Domestic automated teller machine	On
International, all channels	Off
Contactless	Off
Card-not-present, international	Off

9.4 Customer Controls

The customer may switch each capability on or off, and may set a transaction limit for each, through the mobile application, internet banking, the contact centre or any branch. The facility shall be available at all hours, shall take effect immediately, and shall be provided free of charge. A reduction of a limit or the switching off of a capability shall take effect without verification; an increase or the switching on of a capability may be subject to authentication.

9.5 Indicative Limits

The following per-day limits apply unless the customer has set a lower limit. Limits are set at the card level and operate within the transaction limits of the linked account under the applicable account policy; the lower of the two applies.

Channel	Basic	Classic	Gold	Platinum
ATM cash withdrawal	Rs. 10,000	Rs. 25,000	Rs. 50,000	Rs. 1,00,000
Point of sale purchase	Rs. 25,000	Rs. 1,00,000	Rs. 2,00,000	Rs. 5,00,000
E-commerce	Rs. 25,000	Rs. 1,00,000	Rs. 2,00,000	Rs. 5,00,000
Contactless, per transaction	Not enabled	Rs. 5,000	Rs. 5,000	Rs. 5,000

Channel	Basic	Classic	Gold	Platinum
Contactless, per day without authentication	Not enabled	Rs. 10,000	Rs. 10,000	Rs. 10,000

9.6 No Overdrawing

A card transaction shall be declined where the available balance in the linked account is insufficient. A card shall not create an overdraft in the linked account. Where a sanctioned overdraft or sweep facility exists, the available balance includes the sanctioned limit or the sweep-eligible balance, and the transaction may be authorised to that extent.

9.7 Force Post and Offline Transactions

Where a transaction is presented for settlement without prior authorisation, or is presented after an offline approval at a merchant terminal, and the available balance is insufficient, the account shall not be permitted to go into unauthorised debit. The amount shall be recorded as a receivable, the customer shall be informed within one business day with an explanation, and recovery shall be sought from subsequent credits. No interest, charge or penalty shall be levied on the customer in respect of such an amount.

10. Permitted Usage and Channels

10.1 Channels

A card may be used at automated teller machines, cash recycler machines, point of sale terminals, e-commerce merchants, contactless terminals, and such other channels as the Bank enables. Availability by variant is set out in Annexure A.

10.2 Prohibited Usage

A card shall not be used for any transaction prohibited by law, for any transaction in foreign exchange not permitted under the applicable foreign exchange regulations, or for a purpose inconsistent with the character of the linked account. The Bank may decline a transaction that appears to fall within this paragraph.

10.3 Merchant Category Controls

The Bank shall block, at the network level, merchant categories that are prohibited under applicable law. The Bank shall not block a lawful merchant category on grounds of the Bank's own view of the propriety of the expenditure. Where a category is blocked, the reason code returned shall be one from which the customer can understand that the block is regulatory in nature.

10.4 Cash at Point of Sale

Where the Bank enables cash withdrawal at a point of sale terminal, the per-transaction and per-month limits shall be those prescribed by the applicable regulation, and no charge shall be levied on the customer for the facility.

10.5 Recurring Mandates

A recurring debit registered on a card shall be registered with an additional factor of authentication. The Bank shall send a pre-debit notification at least twenty-four hours before each recurring debit, stating the merchant, the amount and the date, and shall provide in that notification a means of cancelling the mandate. Cancellation shall take effect for debits falling due after the instruction is received, and shall be effected free of charge. Cancellation with the Bank does not terminate the customer's contract with the merchant, and the customer shall be told so.

10.6 Declines

The Bank may decline a transaction where the available balance is insufficient, where a capability is switched off or a limit exceeded, where the transaction fails authentication, where fraud monitoring identifies risk, where a technical failure occurs, or where declining is required by law. The reason code returned shall be sufficiently specific for the customer to identify the cause, and shall be reproduced in Annexure C.

10.7 Fraud Monitoring

Card transactions shall be monitored in real time against rules calibrated to the customer's profile and to prevailing fraud patterns. Where a transaction is declined or a card blocked on the basis of monitoring, the customer shall be alerted immediately with the reason, and shall be given a means of confirming the transaction and having the block lifted at once. A block applied on suspicion shall not persist beyond twenty-four hours without a review by the Fraud Risk Unit.

11. Charges

11.1 Principles

Charges shall be reasonable, shall bear a demonstrable relationship to the cost of providing the service, and shall be disclosed before the service is availed. The Schedule of Charges shall be displayed at branches, published on the Bank's website, and provided to the customer at issuance. No charge shall be levied that is not in the published Schedule.

11.2 Free Transaction Entitlements

The following minimum free entitlements apply per calendar month at automated teller machines. Entitlements are counted per card and include financial and non-financial transactions unless otherwise stated.

Entitlement	Number
Transactions at FinTrust automated teller machines	5 free
Transactions at other banks' machines, metropolitan centres	3 free
Transactions at other banks' machines, non-metropolitan centres	5 free
Balance enquiry at FinTrust machines	Unlimited free
Declined transactions, any cause	Never counted or charged
Transactions on a Basic Debit Card	Per the Savings Account Policy

A transaction that fails for a reason attributable to the machine, the network or the Bank shall not be counted against an entitlement and shall not be charged, whether or not the customer reports it.

11.3 Indicative Charges

Charge	Basic	Classic	Gold	Platinum
Issuance fee	Nil	Nil	Nil	Nil
Annual fee	Nil	Rs. 250	Rs. 500	Rs. 750
Replacement, customer cause	Rs. 200	Rs. 200	Rs. 200	Nil
Replacement, Bank or security cause	Nil	Nil	Nil	Nil
Transaction beyond free entitlement, financial	Rs. 21	Rs. 21	Rs. 21	Nil
Transaction beyond free entitlement, non-financial	Rs. 10	Rs. 10	Rs. 10	Nil
Foreign currency mark-up	Not applicable	3.00%	3.00%	2.50%
International ATM withdrawal	Not applicable	Rs. 125	Rs. 125	Nil
Duplicate transaction slip	Rs. 50	Rs. 50	Nil	Nil
Personal identification number change	Nil	Nil	Nil	Nil
Switching a capability on or off	Nil	Nil	Nil	Nil

11.4 Charges Not to Be Levied

No charge shall be levied for: a declined transaction; a transaction that failed for a cause attributable to the machine, the network or the Bank; a replacement issued following a report under Section 16 or a compromise under paragraph 8.6; a replacement issued because the Bank re-issued cards for security reasons; a block or unblock; a personal identification number reset; the correction of an error attributable to the Bank; or the making of a complaint.

11.5 Notice of Revision

A new charge or an increase in an existing charge shall be notified to affected customers at least thirty days before the effective date. A customer who does not accept a revision may surrender the card without charge within sixty days of the notification, and the surrender shall not affect the linked account.

12. International Usage and Foreign Currency

12.1 Default State

International usage is switched off on every card at issuance. The customer must switch it on under paragraph 9.4 before travelling or transacting internationally. The Bank shall state this in the communication accompanying the card and shall remind the customer of it in the mobile application when an international transaction is declined for this reason.

12.2 Conversion

A transaction in a currency other than Indian Rupees is converted into Indian Rupees at the rate applied by the card network on the day the transaction settles with the Bank, which may differ from the day on which the transaction was made. The mark-up in paragraph 11.3 is then applied to the converted amount. The rate applied and the mark-up shall both be shown separately in the account statement.

12.3 Dynamic Currency Conversion

Where a merchant abroad offers to bill the customer in Indian Rupees, the rate is set by the merchant or its service provider and not by the Bank, and is usually less favourable. The mark-up under paragraph 11.3 remains applicable because the transaction remains an international one. The Bank shall disclose this in the customer-facing terms and in its pre-travel communications.

12.4 Regulatory Compliance

International card transactions must comply with the applicable foreign exchange regulations. The Bank shall decline a transaction that is not permitted, and shall report international transactions to the authorities where required.

12.5 Refunds

Where an international transaction is refunded, the refund is converted at the rate applying on the day the refund settles with the Bank. The mark-up charged on the original transaction shall be reversed in proportion to the refund, automatically and without the customer having to claim it.

13. Tokenisation and Data Security

13.1 Prohibition on Storage of Card Data

The Bank shall not permit any merchant, aggregator or payment gateway to store the actual card number, expiry date or card verification value. Card-on-file arrangements shall be implemented only through tokens.

13.2 Tokenisation

The Bank shall support tokenisation of its cards for device-based, merchant-based and channel-based use. A token shall be issued only with the customer's explicit consent given with an additional factor of authentication, shall be specific to the combination for which it was issued, and shall have no value in any other context.

13.3 Customer Visibility and Control

The Bank shall provide the customer with a facility, in the mobile application and internet banking, to view every token issued against the card, identifying the merchant or device to which it relates and the date of issue, and to delete any token. Deletion shall take effect immediately and shall be free of charge.

13.4 Token Lifecycle

Where a card is hotlisted, replaced or expires, every token issued against it shall be updated or suspended in accordance with the network's lifecycle management rules. Where a card is hotlisted following a report of loss, theft or compromise, tokens shall be suspended immediately and shall be reinstated only against the replacement card and with fresh customer consent.

13.5 Data Security Standards

The Bank, and every service provider handling cardholder data on its behalf, shall comply with the applicable payment card data security standard, and shall be certified to it annually. Cardholder data shall be encrypted in transit and at rest, access shall be granted on the principle of least privilege, and access shall be logged and reviewed monthly.

13.6 Data Localisation

Payment system data relating to transactions on cards issued by the Bank shall be stored in systems located in India, in accordance with the applicable regulatory direction. Where a transaction has a foreign leg, a copy of the data may be retained abroad to the extent permitted.

13.7 Breach Response

A suspected compromise of cardholder data shall be reported to the Chief Information Security Officer within two hours of detection. Where a compromise is confirmed, affected cards shall be hotlisted and replaced free of charge, affected customers shall be notified directly and without undue delay, and the card networks and the regulator shall be notified in accordance with the applicable requirements.

14. Failed Transactions and Automatic Reversal

14.1 What This Section Covers

This Section applies where a customer's account has been debited but the transaction did not complete: cash was not dispensed or was dispensed short at an automated teller machine, a point of sale transaction was declined but debited, an e-commerce transaction failed after debit, a card-to-card transfer did not credit the beneficiary, or a cash deposit at a recycler machine was not credited.

14.2 Automatic Reversal

The Bank shall reverse a failed transaction of its own motion, on the basis of its own reconciliation, and shall not require the customer to lodge a complaint as a condition of reversal. The customer's failure to report a failed transaction does not relieve the Bank of the obligation to reverse it.

14.3 Timelines and Compensation

Scenario	Reversal to be completed by	Compensation for delay
ATM cash not dispensed or dispensed short	T + 5 calendar days	Rs. 100 per day from the day after the deadline
Cash deposit at a recycler not credited	T + 5 calendar days	Rs. 100 per day
Point of sale transaction declined but debited	T + 5 calendar days	Rs. 100 per day
E-commerce transaction failed after debit	T + 5 calendar days	Rs. 100 per day
Card-to-card transfer not credited to beneficiary	T + 1 calendar day	Rs. 100 per day
Failed transaction at a merchant, amount not settled	T + 5 calendar days	Rs. 100 per day

T is the date of the transaction. Compensation accrues per day of delay beyond the deadline until the date of actual credit, and shall be credited to the customer's account automatically, without the customer having to claim it and without regard to whether the customer complained.

14.4 Where the Customer Reports

Where a customer reports a failed transaction, the Bank shall acknowledge the report immediately, issue a reference number, and resolve it within the timeline in paragraph 14.3 running from the date of the transaction, not from the date of the report. The Bank shall not extend a timeline because the report was late.

14.5 Transactions at Other Banks' Machines

Where the failed transaction occurred at another bank's automated teller machine, the timeline in paragraph 14.3 applies to the Bank as issuer. The Bank shall not make reversal conditional on receiving settlement or a response from the acquirer, and shall pursue recovery from the acquirer separately.

14.6 Reconciliation Differences

Where reconciliation shows that cash was in fact disbursed after a reversal has been made, the Bank may seek recovery from the customer only after informing the customer of the evidence relied upon, including the machine's electronic journal and, where available, the camera record, and giving the customer fifteen days to respond. The Bank shall not debit the account unilaterally, and shall not recover any charge, interest or penalty in respect of such an amount.

14.7 Records

The Bank shall retain, for each failed transaction, the switch record, the electronic journal extract, the reconciliation output, the date of reversal and the compensation computed and paid. These records shall be retained for five years and produced on demand to Compliance, Internal Audit and the regulator.

14.8 Reporting

Card Operations shall report monthly to the Head of Cards and Payments the number of failed transactions by scenario, the proportion reversed within the timeline, the compensation paid, the machines and merchants generating a disproportionate share, and any instance in which a reversal was made outside the timeline together with the cause.

15. Unauthorised Transactions and Customer Liability

15.1 Reporting Channels

The Bank shall maintain a round-the-clock reporting facility comprising a toll-free telephone number, an in-application reporting option and a dedicated electronic mail address. On receipt of a report the Bank shall immediately acknowledge it, record the date and time of receipt, issue a reference number and block the card.

15.2 Alerts

An alert shall be sent for every card transaction to the customer's registered mobile number and, where registered, electronic mail address, carrying the facility to report an unauthorised transaction directly from the alert. The absence of a registered mobile number shall not be treated as customer negligence.

15.3 Liability Framework

The framework in the policy governing the linked account applies. For convenience, the caps are reproduced below; where they differ from the account policy, the account policy prevails.

Circumstance	Customer liability
Contributory fraud, negligence or deficiency on the part of the Bank	Nil, regardless of whether the transaction was reported
Third-party breach with no deficiency on either side, reported within 3 working days	Nil
Same, reported within 4 to 7 working days, Basic Savings linked account	Lower of transaction value or Rs. 5,000
Same, reported within 4 to 7 working days, other savings or salary account	Lower of transaction value or Rs. 10,000
Same, reported within 4 to 7 working days, current account	Lower of transaction value or Rs. 25,000
Same, reported beyond 7 working days	As determined under paragraph 15.5
Loss due to customer negligence, before the customer reports	Full, up to the point of reporting
Loss due to customer negligence, after the customer reports	Nil

Working days are counted from the date of receipt of the Bank's alert regarding the transaction.

15.4 Shadow Credit and Resolution

The Bank shall credit the disputed amount within ten working days of the report, notionally and without prejudice to the outcome. The investigation shall be completed and the customer informed within ninety days. A shadow credit shall be reversed only after fifteen days' notice with reasons. Where the investigation is not completed within ninety days, the shadow credit shall stand confirmed and shall not thereafter be reversed.

15.5 Burden of Proof

The burden of proving customer liability rests with the Bank. Where the Bank asserts customer negligence, it shall record the specific evidence relied upon, and the assertion shall be approved by an officer not below

the rank of Vice President. The fact that a transaction was authenticated with a personal identification number or a one-time password is not by itself proof of customer negligence.

15.6 Compensation

Where the Bank fails to meet a timeline in this Section, compensation of Rs. 100 per day of delay shall be credited automatically, without the customer having to claim it.

15.7 Relationship with Section 14

A transaction that failed and was debited is dealt with under Section 14 and not under this Section. Where it is unclear whether a transaction failed or was unauthorised, the Bank shall apply whichever of the two Sections produces the earlier reversal, and shall reclassify once the position is established. Uncertainty shall not delay the credit to the customer.

16. Loss, Theft, Hotlisting and Replacement

16.1 Reporting

A customer may report the loss, theft or suspected compromise of a card through the toll-free helpline, the mobile application, internet banking, any branch or the contact centre, at any hour. The Bank shall hotlist the card immediately on receipt and confirm the hotlisting to the customer with the date and time recorded.

16.2 Self-Service Blocking

The customer may apply a temporary block through the mobile application or internet banking at any time, taking effect immediately, and may lift it through the same channels. A card hotlisted following a report of loss, theft or compromise cannot be unblocked, and a replacement must be issued.

16.3 Liability After Reporting

The customer bears no liability for any transaction effected after the time at which the report was received. The time of receipt recorded by the Bank governs, and where the Bank's record is absent or unclear the time asserted by the customer shall be accepted.

16.4 Replacement

A replacement card shall be issued within seven working days of a report, free of charge. The replacement shall carry a new card number and expiry date. Tokens against the hotlisted card shall be suspended under paragraph 13.4 and shall be re-created only with fresh consent. The Bank shall provide the customer with a list of the recurring mandates registered against the hotlisted card so that the customer can re-register those to be retained.

16.5 Recurring Mandates on a Replaced Card

The Bank shall not migrate a recurring mandate to a replacement card automatically. Where the card network provides an account updater service, the Bank shall participate in it only for customers who have consented, and shall provide a means of withdrawing that consent.

16.6 Card Found

Where a customer recovers a card reported lost, the customer shall be advised to destroy it by cutting through the chip and magnetic stripe. A hotlisted card shall not be reinstated in any circumstances.

16.7 Cooperation

The Bank may request written confirmation of a report and such information as it reasonably needs to investigate, but shall not make the hotlisting, the replacement or any credit conditional on receiving it.

17. Card Status and the Linked Account

17.1 Dependence on the Linked Account

A debit card has no existence independent of the linked account. A change in the status of the account changes the status of the card, in the manner set out in this Section.

17.2 Account Becomes Inoperative

Where a linked account is classified as inoperative under the applicable account policy, the card shall be blocked for debit transactions. The card shall not be hotlisted or cancelled, and no charge shall be levied in respect of it while the account remains inoperative. On reactivation of the account, the card shall be unblocked within the same turnaround time as the reactivation, without the customer having to make a separate request and without charge. Where the card has expired during the period of dormancy, a replacement shall be issued free of charge.

17.3 Account Frozen or Attached

Where an account is frozen or attached under an order of a competent authority, the card shall be blocked to the extent of the order. Where the order affects only part of the balance, card transactions shall continue to be permitted against the unaffected balance.

17.4 Account Closed

On closure of a linked account, every card issued against it shall be hotlisted with effect from the date of closure. The customer shall be asked to surrender the card or to confirm its destruction, but closure shall not be delayed or refused for want of surrender, and a declaration shall be accepted in its place. Any annual fee charged in respect of a period after closure shall be refunded.

17.5 Death of the Cardholder

On notice of the death of a cardholder, every card issued in that person's name shall be hotlisted immediately. Transactions effected after the date of death shall be reversed on the claimant's report, save where the Bank establishes that they were effected by or with the authority of the deceased before death. The Bank shall not require the nominee or legal representative to produce the card, and shall not levy any charge in connection with the hotlisting.

Where a card was issued to a joint holder against a jointly held account, that card continues to operate to the extent that the survivorship mandate permits the account itself to be operated.

17.6 Variant Migration of the Account

Where the linked account migrates to a different variant, the card is not changed automatically. The Bank shall inform the customer of the card variant now available and shall change the card on request, or at the next renewal. Where migration is to a lower variant, no charge applicable to the higher card variant shall be levied after the migration takes effect.

17.7 Change of Authorised Signatory

Where a Business Debit Card has been issued to an authorised signatory of a current account and that person ceases to be an authorised signatory, the card shall be hotlisted within one business day of the Bank receiving notice, and the customer shall be informed. Transactions effected on the card after the Bank has notice shall not be debited to the account.

18. Renewal, Expiry and Withdrawal

18.1 Renewal

The Bank shall ordinarily issue a renewal card before the expiry date, dispatched inactive under Section 7. A renewal shall not be issued where the linked account is closed or inoperative, where the customer has asked not to be issued a renewal, or where the card has been hotlisted and not replaced.

18.2 Customer Election

A customer may tell the Bank at any time up to thirty days before expiry that a renewal is not wanted. The Bank shall then not issue one, and shall not levy any fee in respect of the expired card thereafter.

18.3 Fees on Renewal

An annual fee for the renewed card shall be charged only after the renewal card has been activated. Where a renewal card is issued but never activated, no fee shall be charged, and any fee charged shall be reversed under paragraph 9.2.

18.4 Withdrawal of a Variant

Where the Bank withdraws a card variant, existing cardholders shall be given at least ninety days' notice, shall be offered a comparable variant at no higher charge for the remainder of the period for which a fee has been paid, and shall be entitled to a proportionate refund of any fee paid if they choose not to accept the alternative.

18.5 Withdrawal of a Card from a Customer

The Bank may withdraw a card from a customer, after giving not less than thirty days' notice stating the reason, where the card has been used for a purpose prohibited under paragraph 10.2, where the customer has failed to complete periodic updation despite three notices, or where continuation exposes the Bank to unacceptable regulatory or reputational risk on the approval of the Head of Compliance. Withdrawal of a card is not a ground for, and does not effect, closure of the linked account.

18.6 Immediate Withdrawal

Where the Bank has reasonable grounds to suspect that a card is being used fraudulently or that its credentials are compromised, it may hotlist the card without notice. It shall inform the customer immediately, state the reason to the extent it is permitted to, and issue a replacement free of charge unless the suspicion relates to the conduct of the customer, in which case the matter shall be referred to the Fraud Risk Unit within one business day.

19. Card Stock and Physical Custody

19.1 Custody

Unpersonalised card stock, personalised cards awaiting dispatch, returned undelivered cards and instant issuance stock shall be held in a fire-resistant safe or strongroom under dual control. Keys and combinations shall be held by two officers, neither of whom may access the stock alone.

19.2 Records

A register shall be maintained recording, for every card in stock, the receipt, the issue, the person to whom issued, the acknowledgement, and the destruction. The register shall be balanced daily against physical stock by an officer who is not one of the joint custodians.

19.3 Instant Issuance Stock

Instant issuance stock held at branches shall be limited to the quantity required for thirty days of expected issuance. Stock in excess shall be returned to the central store. A branch shall not hold instant issuance stock unless it has two officers available to act as joint custodians.

19.4 Destruction

Cards to be destroyed, whether returned undelivered, expired, hotlisted or damaged, shall be destroyed by cutting through the chip and the magnetic stripe, under dual control, and the destruction recorded in the register with the card numbers and the date. Destruction shall be witnessed by an officer who is not a joint custodian.

19.5 Loss of Stock

Any discrepancy in card stock shall be reported to Operations Risk and to the Head of Cards and Payments on the day of detection. The affected card numbers shall be hotlisted immediately, whether or not they have been personalised, and shall not be reinstated.

19.6 Verification

Branch card stock shall be verified physically at least once each quarter by an officer independent of the custodians, and the verification recorded. Central store stock shall be verified monthly. Internal Audit shall verify stock at every branch visit.

20. Outsourcing and Vendor Management

20.1 Scope

The Bank engages third parties for card personalisation, logistics and delivery, contact centre operations, switch and network connectivity, fraud monitoring and tokenisation services. Every such engagement is subject to the Bank's Outsourcing Policy and to the additional requirements of this Section.

20.2 Due Diligence

Before engagement, the Bank shall satisfy itself as to the vendor's financial standing, technical capability, information security posture, certification to the applicable payment card data security standard, business continuity arrangements, and record of regulatory or security incidents.

20.3 Contractual Requirements

Every agreement shall provide for confidentiality obligations no less stringent than the Bank's own, the right of the Bank and its auditors and the regulator to inspect and audit, prohibition on sub-contracting without the Bank's written consent, defined service levels with remedies, the location at which data will be stored, the obligation to notify the Bank of a security incident within a stated period not exceeding two hours, the return or destruction of data on termination, and an orderly exit and transition plan.

20.4 Responsibility Not Transferred

Outsourcing does not transfer the Bank's responsibility to the customer or to the regulator. An act or omission of a vendor is treated, for the purposes of Sections 14 and 15, as an act or omission of the Bank, and shall not be relied upon to assert that a deficiency lay outside the Bank.

20.5 Monitoring

Vendor performance shall be reviewed at least quarterly against agreed service levels, and information security posture shall be reassessed annually. Findings shall be reported to the Head of Cards and Payments and, where adverse, to Operations Risk.

20.6 Concentration

The Bank shall avoid dependence on a single vendor for card personalisation or for switch connectivity such that a failure of that vendor would materially interrupt card services. Concentration shall be assessed annually and reported to the Risk Management Committee.

21. Confidentiality, Data Protection and Anti-Money Laundering

21.1 Confidentiality

The Bank owes a duty of confidentiality in respect of card transactions and cardholder data, which survives the closure of the account. Disclosure is permitted only where compelled by law or an order of a competent authority, where there is a duty to the public to disclose, where the interests of the Bank require it and then only to the minimum extent necessary, or where the customer has given express and informed consent. Disclosure to a card network for the purpose of switching, settling or investigating a transaction is disclosure required in the interests of the Bank and the customer, and is permitted to the extent necessary.

21.2 Marketing

Card transaction data shall not be used to market products to the customer, or shared with any merchant or partner for that purpose, without the customer's express consent, which may be withdrawn at any time without affecting the card or the linked account.

21.3 Access and Correction

A customer is entitled to a copy of the transaction data held in respect of the card and to require correction of any inaccuracy. A correction request shall be given effect within ten business days or refused in writing with reasons.

21.4 Retention

Card transaction records shall be retained for five years from the date of the transaction. Records relating to a disputed or failed transaction shall be retained for five years from the date of resolution. Where a transaction is the subject of an investigation, records shall be retained until the investigation and any resulting proceedings are concluded.

21.5 Anti-Money Laundering

Card transactions form part of the transaction profile monitored under the Bank's AML/CFT framework. The following warrant attention:

- Repeated cash withdrawals just below a reporting or authentication threshold.
- Withdrawal of the full balance immediately on every credit, with the account retaining a negligible balance.
- Card usage in a geography inconsistent with the customer's recorded address and travel pattern, particularly where accompanied by a recent change of contact details.
- A concentration of transactions at a single merchant, or at merchants of a category inconsistent with the customer's profile.
- Multiple cards issued against unrelated accounts sharing a device identifier, an address or a contact number.
- Substantial card activity shortly after reactivation of a dormant account.

21.6 Reporting

Reports shall be filed with the financial intelligence authority within the prescribed timelines. Staff shall not disclose to a customer or to any other person that a report has been or may be filed, or that a card or an account is under investigation.

22. Grievance Redressal, Roles and Policy Review

22.1 Grievance Channels and Escalation

A grievance may be lodged at any branch, through the contact centre, through the complaint form on the Bank's website or mobile application, by letter, or by electronic mail to the published grievance address. Every grievance shall be acknowledged, tracked through a unique reference number, and closed only with a substantive response.

Level	Authority	Resolution time
1	Cards Service Manager or Branch Manager	7 business days
2	Regional Nodal Officer	14 business days
3	Principal Nodal Officer	21 business days
4	Internal Ombudsman	30 days
5	External Banking Ombudsman	As prescribed by the scheme

A grievance the Bank proposes to reject wholly or partly shall be referred to the Internal Ombudsman before the decision is communicated. The right to approach the external Banking Ombudsman shall be stated in every final response. A grievance concerning a failed transaction does not displace the automatic reversal obligation in Section 14, which operates whether or not a grievance is lodged.

22.2 Responsibility Matrix

Role	Responsibility
Board of Directors	Approval of the Policy; oversight of its operation
Risk Management Committee	Recommendation of the Policy; exception and concentration reporting
Product and Pricing Committee	Charges, limits and the variant feature matrix
Head of Cards and Payments	Policy ownership; alignment of customer-facing terms; failed transaction reporting
Head of Information Security	Data security standards, tokenisation, breach response
Head of Operations Risk	Card stock discrepancies, cards issued in error, force post incidents
Fraud Risk Unit	Fraud monitoring rules; review of suspicion-based blocks
Branch Manager	Custody of card stock; issuance conduct; first-level grievance
Regional Head	Second-level approvals; oversight of branch exceptions
Internal Audit	Independent assurance, including physical stock verification

22.3 Approval Authority for Exceptions

Exception type	Approving authority
Issue of a card against an account with a joint mandate	Branch Manager, on written instruction of all holders

Exception type	Approving authority
Card variant other than the one ordinarily assigned	Branch Manager
Charge on a Basic Debit Card	Head of Retail Liabilities
Branch holding instant issuance stock beyond 30 days' requirement	Head of Cards and Payments
Assertion of customer negligence under 15.5	Vice President
Withdrawal of a card for regulatory risk	Head of Compliance
Engagement of a new personalisation vendor	Head of Cards and Payments with Head of Information Security
Any departure from Section 14, 15.5 or 19	Not permitted

22.4 Monitoring

Compliance shall conduct thematic testing of debit card operations at least twice each financial year, covering consent and issuance quality, dispatch and delivery controls, default capability settings, free entitlement accuracy, failed transaction reversal within timelines, compensation computation, hotlisting turnaround, tokenisation consent records, and card stock custody. Findings shall be reported to the Risk Management Committee with agreed remediation and target dates.

22.5 Key Indicators

- Cards issued, and the proportion activated within sixty days.
- Cards issued without recorded consent, and cards hotlisted under paragraph 6.4.
- Cards dispatched but neither delivered nor returned within fifteen days.
- Failed transactions by scenario, and the proportion reversed within the timeline in paragraph 14.3.
- Compensation paid under paragraphs 14.3 and 15.6.
- Unauthorised transaction reports, shadow credits issued, and reversals of shadow credits.
- Hotlisting requests, and the proportion actioned immediately.
- Replacement cards issued within seven working days.
- Card stock discrepancies, by branch.
- Grievances received per ten thousand cards, and the proportion resolved at Level 1.

22.6 Training

Every member of staff in a role involving card issuance, custody or servicing shall complete certification on this Policy within thirty days of joining and annually thereafter. Certification shall be a condition of continued authorisation to act as a joint custodian of card stock or to conduct instant issuance.

22.7 Policy Review and Amendment

This Policy shall be reviewed at least once every financial year by the Cards and Payments Group in consultation with Compliance, Risk, Information Security, Operations and Legal, and placed before the Board through the Risk Management Committee. An interim amendment may be initiated on a change in regulatory direction, a change in card network rules, the introduction or withdrawal of a variant, a finding from audit or thematic testing, or a material adverse trend in failed transaction or grievance data. Where a regulatory direction takes effect before the Policy can be amended, the direction applies from its effective date and Compliance shall issue an interim instruction. An approved amendment shall be communicated to

staff within seven days, incorporated into training within thirty days, reflected in the customer-facing Debit Card Terms and Conditions within thirty days, and notified to customers where it affects them. The version history is maintained in Annexure D and superseded versions retained for ten years.

Annexure A: Variant Feature Matrix

Feature	Basic	Classic	Gold	Platinum	Business	Senior	Youth
Issuance fee	Nil	Nil	Nil	Nil	Nil	Nil	Nil
Annual fee	Nil	Rs. 250	Rs. 500	Rs. 750	Rs. 500	Nil	Nil
Domestic ATM	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Domestic point of sale	Yes	Yes	Yes	Yes	Yes	Yes	Yes
E-commerce	Yes	Yes	Yes	Yes	Yes	Yes	On request
Contactless	No	Yes	Yes	Yes	Yes	Yes	No
International usage	No	Yes	Yes	Yes	Yes	Yes	No
Cash at point of sale	Yes	Yes	Yes	Yes	No	Yes	No
Tokenisation	Yes	Yes	Yes	Yes	Yes	Yes	No
Airport lounge access	No	No	2 per quarter	4 per quarter	2 per quarter	2 per quarter	No
Purchase protection cover	No	No	Rs. 50,000	Rs. 2,00,000	Rs. 1,00,000	Rs. 50,000	No
Personal accident cover	No	Rs. 2,00,000	Rs. 5,00,000	Rs. 10,00,000	Rs. 5,00,000	Rs. 5,00,000	No

Insurance covers are provided under group policies taken by the Bank with an insurer. The Bank is not the insurer. The conditions, exclusions and claim procedure shall be disclosed to the customer at issuance and annually thereafter, together with any requirement of card usage within a stated period preceding the event.

Annexure B: Turnaround Time and Compensation Matrix

Event	Timeline	Compensation for delay
Card dispatch after approved request	3 business days	Nil
Card delivery trace where undelivered	15 days from dispatch	Free replacement
Notification of returned undelivered card	2 business days	Nil
Destruction of uncollected returned card	60 days	Not applicable
Contact where card not activated	60 days from dispatch	Not applicable
Hotlisting of card on report	Immediate	Nil, customer not liable after report
Replacement after loss, theft or compromise	7 working days	Nil
Unblocking of card on account reactivation	Same as account reactivation	Nil
Hotlisting on cessation of authorised signatory	1 business day	Not applicable
ATM cash not dispensed, reversal	T + 5 calendar days	Rs. 100 per day
Cash deposit at recycler not credited	T + 5 calendar days	Rs. 100 per day
Point of sale or e-commerce debit without completion	T + 5 calendar days	Rs. 100 per day
Card-to-card transfer not credited	T + 1 calendar day	Rs. 100 per day
Acknowledgement of unauthorised transaction report	Immediate	Nil
Shadow credit for unauthorised transaction	10 working days	Rs. 100 per day
Investigation of unauthorised transaction	90 days	Credit stands confirmed
Notice before reversing a shadow credit	15 days	Not applicable
Response window on a reconciliation difference	15 days	Not applicable
Review of a suspicion-based block	24 hours	Not applicable
Pre-debit notification for a recurring mandate	24 hours in advance	Not applicable
Correction of customer information	10 business days	Nil
Notice before a charge revision	30 days	Not applicable
Notice before withdrawal of a card variant	90 days	Proportionate fee refund
Grievance, Level 1	7 business days	Nil
Grievance, Level 2	14 business days	Nil
Grievance, Level 3	21 business days	Nil

Annexure C: Decline and Failure Reason Codes

Code	Meaning	Charged to customer	Counts against free entitlement
D01	Insufficient available balance	No	No
D02	Incorrect personal identification number	No	No
D03	Card capability switched off by customer	No	No
D04	Transaction limit exceeded	No	No
D05	Card blocked, temporary	No	No
D06	Card hotlisted	No	No
D07	Card expired	No	No
D08	Additional factor of authentication failed	No	No
D09	Merchant category blocked for regulatory reason	No	No
D10	Declined by fraud monitoring	No	No
D11	Account inoperative	No	No
D12	Account frozen or attached	No	No
F01	Cash not dispensed, machine cause	No	No
F02	Cash dispensed short	No	No
F03	Cash retracted by machine	No	No
F04	Network timeout at switch	No	No
F05	Acquirer unavailable	No	No
F06	Deposit at recycler not credited	No	No
S01	Successful financial transaction	Per Section 11	Yes
S02	Successful non-financial transaction	Per Section 11	Yes, except balance enquiry at FinTrust machines

Codes prefixed D denote a decline before any debit. Codes prefixed F denote a failure after a debit and are dealt with under Section 14. Codes prefixed S denote a completed transaction. No code prefixed D or F shall be counted against a free transaction entitlement or charged to the customer in any circumstance.

Annexure D: Abbreviations and Version History

D.1 Abbreviations

Abbreviation	Expansion
AFA	Additional Factor of Authentication
AML	Anti-Money Laundering
ATM	Automated Teller Machine
CFT	Counter-Financing of Terrorism
CISO	Chief Information Security Officer
CNP	Card Not Present
EMV	Europay, Mastercard and Visa chip standard
FIU	Financial Intelligence Unit
KYC	Know Your Customer
OTP	One-Time Password
PCI DSS	Payment Card Industry Data Security Standard
PIN	Personal Identification Number
POS	Point of Sale
TAT	Turnaround Time

D.2 Version History

Version	Date	Approved by	Summary of change
1.0	05 October 2020	Board of Directors	Initial issue
2.0	22 June 2021	Board of Directors	Introduction of the harmonised failed transaction framework in Section 14
3.0	14 February 2022	Board of Directors	Cards issued domestic-only by default; introduction of customer card controls in Section 9
3.1	09 December 2022	Product and Pricing Committee	Revision of charges and free entitlements
4.0	18 September 2023	Board of Directors	Introduction of Section 13 tokenisation framework; prohibition on merchant storage of card data
4.1	27 May 2024	Product and Pricing Committee	Revision of variant limits; contactless per-transaction limit revised

Version	Date	Approved by	Summary of change
5.0	21 January 2026	Board of Directors	Rewrite of Sections 7 and 19; green PIN made the only permitted method; strengthened custody controls
5.1	14 April 2026	Board of Directors	Current version. Section 15 liability caps aligned across linked account types; addition of Annexures B and C
